J. Indian Chem. Soc.,
Vol. 84, December 2007, pp. 1269-1303

Journal of the Indian Chemical Society

Vol. 84, 2007

Subject Index

***ab-initio* methods**

Quantum chemical predictions of vibrational mode analysis of germaformaldehyde and related molecules, 448

Acacia catechu

Studies on catechu : Isolation of (+)-catechin from different parts of *Acacia catechu*, 1258

Acetate buffer

Kinetics and mechanism of the oxidation of ethane diol and butane-2,3-diol by tetrachloroaurate(III) in acetate buffer medium, 462

Acetonitrile

A rapid and simple HPLC method for the routine laboratory analysis of Sudan (I to IV) dyes in chilli and chilli products, 926

Acetophenone

Theoretical evaluation of viscosity in binary solutions of acetophenone at 308.15 K, 1130

Acetylacetone

Spectral and catalytic hydrogenation studies of Ru^{II} organometallics containing substituted tertiary phosphines, 411

Acetylation

Acetylation of some organic compounds under microwave irradiation, 188

Acetylcholine

Electrical conductivity of *s*-acetylthiocholine halides and perchlorate in *n*-propanol at 25 °C, 816

Acid dye

UV and extractive spectrophotometric methods for the determination of Nebivolol hydrochloride in tablets, 1242

Acid hydrolysis

Kinetics and mechanistic study of acid-catalysed hydrolysis of *p*-chlorophenyl-2-furohydroxamic acid, 588

Acid perchlorate

Kinetics and mechanism of electron transfer reactions oxidation of mannitol by chromium(VI) in acid perchlorate medium, 1210

Acoustic

Comparative study of intermolecular interactions by acoustic properties of α-bromoacetophenones and coumaran-3-ones in ethanol and dioxane solvents, 159

Acoustic parameters

Studies on the effect of different ligands and percent composition of organic solvents on solvent-solute interaction by interferometric technique, 389

Acoustical study

Acoustical study of substituted hydroxy-1,3-propandione in dioxan-water mixtures in different concentrations, 480

Acridine orange

Catalytic effect of pre-micellar aggregates on oxidative degradation of acridine orange by acidic chlorite, 443

Acrylic acid doping

Effect of acrylic acid doping on the properties of chemically synthesized polyaniline, 176

Acyldemetallation reactions

Carbon-carbon bond formation via palladium catalyzed reactions of organomercurials with acylhalides, 394

Addition compounds

Synthesis, characterization and reactivity of tin(II) 2,4-dinitrophenoxide, 230

Adrenocortical drugs

Application of ammonium metavanadate for the determination of some tubercular and adrenocortical steroid drugs, 100

Adsorption

Polymerized latik for retrieval of lead(II) from aqueous systems, 770

Kinetic and thermodynamic investigations of adsorption of fluoride onto activated *Aloe vera* carbon, 1114

Alanine conformers

Theoretical study on relations between the helix structure and optical rotation of alanine, 884

β-Alanine

Investigations on some tridentate Schiff base metal complexes, 323

Alcohols

Iodine catalyzed selective *O*-alkylation of alcohols with orthoesters, 189

Aldehyde

Synthesis of some new 2,4,6-trisubstituted phenyl pyrimidines using 4-nitro and 4-fluorophenacyl dimethylsulfonium bromides with aromatic aldehydes, 299

Aliphatic alcohol

Studies on physico-chemical properties with the relaxation phenomena of some normal aliphatic alcohols in non polar solvent under Giga Hertz electric field at a single temperature, 241

Aliquat-336

Extraction chromatographic studies of cobalt(II) with aliquat-336, 828

Alkali deuterides

Evaluation of crystalline state properties of alkali hydrides and deuterides, 820

Alkali halide

A comparative study of crystalline state properties of alkali halides using the three standard potential models, 942

Alkali hydrides

Evaluation of crystalline state properties of alkali hydrides and deuterides, 820

Alkoxides

Electrochemical reactions at sacrificial electrodes. Part-XX. Synthesis of coordination compounds of antimony(III) alkoxides, 25

Electrochemical reactions at sacrificial electrodes. Part-XIX. Synthesis of antimony(III) alkoxides, 135

Alkoxometallate

Synthesis, spectroscopic and magnetic properties of the first heterotrimetallic complexes of cobalt(II) featuring nonalkoxoidistannate or -dititanate ligands, 532

Allyl hydroperoxides

Oxidation of olefins, 902

***Aloe vera* carbon**

Kinetic and thermodynamic investigations of adsorption of fluoride onto activated *Aloe vera* carbon, 1114

Aluminium(III)

Synthesis, spectroscopic and electrochemical studies of axially ligated aluminium(III) etioporphyrins, 640

AM1 calculations

AM1 and DFT calculation of dicyano derivatives of $[2_2](1,4)$-cyclophanes, 1104

Amines

Kinetic studies on the reactions of *O*-(2′,4′-dinitrophenyl)-1,7,7-trimethylbicyclo [2.2.1]heptan-2-one oxime with nucleophiles in aprotic solvents – mechanism for the uncatalysed pathway, 365

Amino acids

Theoretical binding affinities and IR spectra of β-cyclodextrin to non-essential amino acids, 263

Synthesis, characterization and antifungal activity of mixed ligand complexes of Co^{II}, Ni^{II} and Cu^{II} with *cis*-3,7-dimethyl-2,6-octadiensemicarbazone and amino acids, 341

Schiff base complexes of some metal ions with vanillin and amino acids, 739

A quantitative equilibrium studies on mixed ligand complexes of cadmium with nitrogen, oxygen and sulphur containing drugs and amino acids, 987

Voltammetric determination of composition and stability constants of some Pb-amino acids-sulfadiazene (SDZ) complexes, 1216

HF and MP2 calculations on two Schiff base ligands and stability constant studies on some of their metal complexes, 1255

2-Amino substituted benzothiazole

Synthesis, characterization and biological screening of some new pyridine derivatives, 785

4-Aminoantipyrine

DNA cleavage efficiency of transition metal(II) Schiff base complexes of 4-aminoantipyrine derivative : Synthesis, characterization and antimicrobial study, 652

Aminopeptidase B

Aminopeptidase B : Regional and subcellular distribution in goat brain tissue, 598

Aminopyrimidines

Synthesis and evaluation of pharmacological activity of some new aminopyrimidine and thiopyrimidine derivatives, 1169

Ammonium metavanadate

Application of ammonium metavanadate for the determination of some tubercular and adrenocortical steroid drugs, 100

Ammonium sulfate

T-X Phase diagram of $(NH_4)_2SO_4/H_2O$, 350

ANFO

Identification of explosives and constituents of fuel oil in ANFO using HPTLC and GC-MS technique, 74

Anilines

Preferential solvation effect on the kinetics of oxidation of *para*-substituted anilines by tetramethylammonium fluorochromate, 359

Antibacterials

Design, synthesis and *in vitro* antibacterial studies of some biologically significant *N*-3-chloro-4-[2′-hydroxy-5′-(phenylazo)phenyl]azetidin-2-ones, 193

Antibacterial activity

Synthesis, spectroscopic and antibacterial studies of mono- and bis(cyclopentadienyl)titanium(IV) derivatives with thiohydantoins temperatures, 427

Synthesis of novel 3-substituted derivatives of 2*H*-pyrano[2,3-*b*]pyridine-2-one moiety, 1048

Antibiotics

Study of mixed ligand complexes of Zn^{II} with some antibiotics and vitamin-B_1 drugs. Kinetics of electrode reactions, 702

Antifungal activity

Antifungal activity of Cubebin from *Piper cubeba*, 823

[4+2] Cycloaddition reaction : Synthesis and antifungal activities of 5-substituted-4-phenyl-1,3-thiazolo[3,2-*a*]pyrimidin-6-one derivatives, 1166

Antimicrobial

Synthesis, characterization and biological screening of some new pyridine derivatives, 785

Antimicrobial activity

Synthesis of 2′-(substituted)benzylidene hydrazino-5-arylamino-1,3,4-thiadiazoles and their antimicrobial activity, 103

New biologically active flavonol glycoside from *Cassia sophera* Linn., 683

Synthesis and biological evaluation of 3-(phthalimidomethyl)-4-(5-substituted isoxazoline and pyrazoline) substituted benzanilides, 1011

Facile synthesis and antimicrobial screening of some biorelevant thiosemicarbazone and its analogues, 1032

Synthesis and antimicrobial activity of *N*-lactosylated isothiobiurets, 1266

Antimicrobial studies

New cobalt(II) tetraaza macrocyclic complexes : Synthesis, spectral and antimicrobial studies, 971

Antimony

Electrochemical reactions at sacrificial electrodes. Part-XIX. Synthesis of antimony(III) alkoxides, 135

Antimony(III)

Electrochemical reactions at sacrificial electrodes. Part-XX. Synthesis of coordination compounds of antimony(III) alkoxides, 25

Antioxidant activity

Antioxidant potential of fennel (*Foeniculum vulgare* Mill.), 948

Antiviral activity

Synthesis, characterization and antiviral activity of 2,3-disubstituted quinazolones, 593

Aprotic solvents

Kinetic studies on the reactions of *O*-(2′,4′-dinitrophenyl)-1,7,7-trimethylbicyclo [2.2.1]heptan-

2-one oxime with nucleophiles in aprotic solvents – mechanism for the uncatalysed pathway, 365

Arsenate

Simple methods of detection of a few ions in the presence of other ones of similar nature in qualitative analysis, 1253

Arsenic

Determination of drinking water-arsenic in nano gram level using flow injection analysis system atomic absorption spectrometry and an interpretation for the cause behind contamination, 1148

Arylisothiocarbamides

On thiogalactosides : Synthesis of *S*-tetra-*O*-acetyl-β-D-galactosyl-1-aryl isothiocarbamides, 1042

***N*-Arylsalicylaldiminates**

Synthesis and characterization of new *N*-aryl-salicylaldiminates of germanium(IV) and tin(IV), 844

Arylthiocarbamides

On thiogalactosides : Synthesis of *S*-tetra-*O*-acetyl-β-D-galactosyl-1-aryl isothiocarbamides, 1042

Synthesis and antimicrobial activity of *N*-lactosylated isothiobiurets, 1266

***C*-Aryl-*N*-(4′-chlorophenyl)nitrones**

1,3-Dipolar cycloadditions. Part-XIII : Microwave irradiation assisted synthesis and spectroscopic investigations of *C*-aryl-*N*-phenyl and *C*-aryl-*N*-(4′-chlorophenyl)nitrones, 1004

***C*-Aryl-*N*-phenylnitrones**

1,3-Dipolar cycloadditions. Part-XIII : Microwave irradiation assisted synthesis and spectroscopic investigations of *C*-aryl-*N*-phenyl and *C*-aryl-*N*-(4′-chlorophenyl)nitrones, 1004

Association constant

Electrical conductivity of *s*-acetylthiocholine halides and perchlorate in *n*-propanol at 25 °C, 816

Astragalin

Phytochemical and pharmacological studies on *Hydrangea macrophylla*, 1026

Atterberg limits

Engineering and physico-chemical properties of soils of deltaic region of West Bengal. Part-I [Physical (index and engineering) properties], 568

Azetidin-2-ones

Design, synthesis and *in vitro* antibacterial studies of some biologically significant *N*-3-chloro-4-[2′-hydroxy-5′-(phenylazo)phenyl]azetidin-2-ones, 193

Azo dye

Coordination compounds of polystyrene-supported azo dye, 217

Syntheses of 2-carboxy-2′,4′-diamino azo benzene and 2-nitro-2′-hydroxy-4′-methyl azo benzene and their use as acid-base indicators, 256

Synthesis and application of 2-nitro-2′,4′-dihydroxy-azobenzene, 4-nitro-2′,4′-dihydroxyazobenzene and 2-carboxy-2′-hydroxyazonaphthol for dyeing of jute fabric, 1020

Azo mesogens

Synthesis and study of new mesogenic homologous series : 4-(4′-*n*-alkoxy benzoyloxy)naphthyl azo benzenes, 658

Azomethine

Synthesis of some biologically important hydrazono and azomethine compounds, 197

Bacillus anthresis

Design, synthesis and *in vitro* antibacterial studies of some biologically significant *N*-3-chloro-4-[2′-hydroxy-5′-(phenylazo)phenyl]azetidin-2-ones, 193

Band assignments

Infrared spectra of charge transfer complexes of bis(N-H-salicylaldiminato)Cu^{II}, 750

Barbituric acid

Microwave assisted Knoevenagel condensation : A facile method for the synthesis of 5-arylidine barbituric acid derivatives under solvent free conditions, 1035

Benzaldehyde

Kinetics and mechanism of the oxidation of substituted benzaldehydes by tetrabutylammonium tribromide, 582

Benzenesulphonyl chloride

Solvent hydrogen bonding and structural effects on nucleophilic substitution reactions Part-1 : Reaction

of benzenesulphonyl chloride with anilines in benzene/2-methylpropan-2-ol-mixtures, 1227

1,5-Benzodiazepines

Synthesis and biological activity of 3*H*-1,5-benzodiazepine derivatives, 1261

Benzoxazole

Synthesis and physico-chemical studies of cobalt(II) complexes containing {2-(*o*-hydroxyphenyl)}-benzoxazole species, 538

Bibenzyl derivative

A new bibenzyl compound from *Dendrobium gratiosissmum*, 714

Biginelli reaction

Biginelli reaction, 959

Bimetallic adducts

Synthesis, structural aspects and ligation behaviour of phenylmercury(II) dithio complexes having Hg–S bonds, 867

Binary liquid mixtures

Theoretical evaluation of viscosity in binary solutions of acetophenone at 308.15 K, 1130

Binary mixtures

Thermophysical properties of binary mixtures of *N,N*-dimethylformamide with isomeric butanols at 298.15, 308.15 and 318.15 K, 37

Volumetric and viscometric studies of binary and ternary mixtures of *o*-nitrotoluene with methyl alcohol, benzene, toluene, carbon tetrachloride and 1,4-dioxane at 298.15 K, 59

Volumetric, acoustic, viscometric and spectroscopic properties for binary mixtures of dipropylene glycol dimethyl ether + *n*-alkylamine mixtures at 298.15 K, 661

Binary solutions

Computation of excess Gibbs free energy of activation, Grunberg-Nissan interaction parameter and rheochor for binary solutions at different temperatures, 487

Theoretical studies of refractivity of binary and ternary solutions, 674

Binding affinities

Theoretical binding affinities and IR spectra of β-cyclodextrin to non-essential amino acids, 263

Binding reaction

Electrochemical detection of DNA based on its interaction with safranine T, 171

Binuclear

Equilibrium and synthetic studies of homo- and heterobinuclear complexes of DTPA with Zn^{II} and some transition and alkaline earth metal ions, 1199

Bioactivity

Synthesis of a few novel bioactive 2-substituted amino-5-indol-3-oyl-4-phenylthiazoles, 1016

Biological activity

Synthesis of some biologically important hydrazono and azomethine compounds, 197

Synthesis of some new 3-(1,2,3-benzotriazolylmethyl)-4-(3-chloro-4-substiututed aryl-2-oxo-azetidine)-5-mercapto-1,2,4-triazoles : Antifungal and anti-bacterial agents, 1037

Synthesis and biological activity of 4-thiazolidones, 1174

Biological studies

Investigations on some tridentate Schiff base metal complexes, 323

Bismark Brown

Brij-35-Bismark Brown-DTPA system in photogalvanic cell, 269

Bleaching

Kinetics and mechanism of electron-transfer reactions : Light induced bleaching of methyl orange by peroxodisulphate in the presence of $[Ru(bipy)_3^{2+}]$ photocatalyst in aqueous solution, 764

Synthesis and application of 2-nitro-2′,4′-dihydroxy-azobenzene, 4-nitro-2′,4′-dihydroxyazobenzene and 2-carboxy-2′-hydroxyazonaphthol for dyeing of jute fabric, 1020

Book Reviews 398, 722, 724

Boroginaceae

New isoflavone glycoside from *Heliotropium indicum*, 1027

Boroxopyrrole

Polarizabilities and energetics of boroxopyrrole homologues studied by *ab initio* and density functional methods, 83

Bridged complex

Substitution reactions of ligand bridged dinuclear complexes of cobalt(III) and chromium(III), 9

Bromate

Mechanism and evaluation of individual kinetic and thermodynamic parameters of acid bromate-lactic acid redox reaction, 548

Bromate oxidation

Cerium(III) catalysis in acid bromate oxidation of citric acid in the presence of bromo-complex-forming metal ions, 165

Bromine

Simple methods of detection of a few ions in the presence of other ones of similar nature in qualitative analysis, 1253

α-Bromoacetophenone

Comparative study of intermolecular interactions by acoustic properties of α-bromoacetophenones and coumaran-3-ones in ethanol and dioxane solvents, 159

***N*-Bromonicotinamide**

N-Bromonicotinamide – A novel, stable and less expensive oxidant and its antimicrobial activity, 1119

***N*-Bromosuccinimide**

Kinetics and mechanism of catalysed and uncatalysed oxidation of D-glucose by *N*-bromosuccinimide in aqueous acidic medium, 777

Buffer solution

Kinetics of substitution reactions of hexacoordinate cobalt(III) complexes with phenoxyacetic acid herbicides, 273

C–N coupling reaction

Coupling of arylamine with coordinated naphthyl-azoimidazole in palladium(II) complexes. Spectroscopic and electrochemical studies, 623

Cadmium

A quantitative equilibrium studies on mixed ligand complexes of cadmium with nitrogen, oxygen and sulphur containing drugs and amino acids, 987

Caffeine

Molecular interaction studies of caffeine in aqueous metal chloride solutions at 308.15 K, 483

Cannabis products

Search for suitable mobile phase in TLC analysis of different drugs of forensic interest and their gas liquid chromatographic experiment, 69

Carbazone

Spectral and physicochemical studies of Ni^{II} complexes with some nitrogen-oxygen and nitrogen-sulphur donor ligands, 55

Carbon-carbon bonds

Metal-catalysed reactions in the synthesis of heterocyclic structures, 1063

Carbon credit

Industrial processing of rice husk for environment, energy and economy, 1246

Carbonmonoxide

Synthesis, spectral and catalytic hydrogenation studies of palladium(II) complexes containing substituted tertiary phosphines, 122

***Cassia sophera* Linn.**

New biologically active flavonol glycoside from *Cassia sophera* Linn., 683

Catalysed reaction

Kinetics and mechanism of catalysed and uncatalysed oxidation of D-glycose by *N*-bromosuccinimide in aqueous acidic medium, 777

Catalysis

Biginelli reaction, 959

Catalytic hydrogenation

Synthesis, spectral and catalytic hydrogenation studies of palladium(II) complexes containing substituted tertiary phosphines, 122

Hydrido Ru^{II} organometallics; synthesis, spectral and catalytic hydrogenation studies, 733

Spectral and catalytic hydrogenation studies of Ru^{II} organometallics containing substituted tertiary phosphines, 411

(+)-Catechin

Studies on catechu : Isolation of (+)-catechin from different parts of *Acacia catechu*, 1258

Catechu

Studies on catechu : Isolation of (+)-catechin from different parts of *Acacia catechu*, 1258

Cephalothin

Study for dependence of transition state with applied potential in electrokinetic reactions of [Mn-antibiotics-cephalothin] system vis-a-vis kinetics of electrode reactions, 96

Cerium(III) catalysis

Cerium(III) catalysis in acid bromate oxidation of citric acid in the presence of bromo-complex-forming metal ions, 165

Chalcone

Transition metal complexes of dehydroacetic acid chalcone : Synthesis, spectral, thermal and fungicidal study, 1096

Charge transfer complexes

Infrared spectra of charge transfer complexes of bis(N-H-salicylaldiminato)Cu^{II}, 750

Chelation

Kinetics of substitution reactions of hexacoordinate cobalt(III) complexes with phenoxyacetic acid herbicides, 273

Chemical education

Some less understood concepts in kinetics and mechanism, 792

Misuse of the term 'molecularity' as applied to elementary reactions : An opinion, 932

Simple methods of detection of a few ions in the presence of other ones of similar nature in qualitative analysis, 1253

Chilli

A rapid and simple HPLC method for the routine laboratory analysis of Sudan (I to IV) dyes in chilli and chilli products, 926

China clay

Homogeneity testing of china clay by complexometry and spectrophotometry using statistical technique, 396

Chloroform

A rapid and simple HPLC method for the routine laboratory analysis of Sudan (I to IV) dyes in chilli and chilli products, 926

Chondroitin sulfate

Linear sweep voltammetric determination of chondroitin sulfate based on its interaction with pyronine B, 717

Chromatographic studies

Extraction chromatographic studies of cobalt(II) with aliquat-336, 828

Chromium(I) complexes

Synthesis and characterization of nitrosylpseudo-halochromium(I) complexes with morpholinomethyl urea and related ligands, 839

Chromium(III)

Substitution reactions of ligand bridged dinuclear complexes of cobalt(III) and chromium(III), 9

Synthesis and fast atom bombardment mass spectrometry of mixed ligand complexes $Cr(acac)L_2$, 632

Synthesis and spectral characterization of Cr^{III} and Fe^{III} complexes of dioxa-diazamacrocycles derived from α-diketones and 1,8-diamino-3,6-dioxaoctane, 850

Chromium(VI)

Effect of sodium dodecyl sulphate micelles on the oxidation of L-methionine by chromium(VI) in perchloric acid medium, 373

Kinetics and mechanism of electron transfer reactions oxidation of mannitol by chromium(VI) in acid perchlorate medium, 1210

Cinnamic acid

Synthesis of quaternary salts of ammonia from cinnamic acids and their plant growth retardant activity, 612

Ciprofloxacin

Synthesis and characterization of metal complexes of flumequine, oxolinic acid, ofloxacin and ciprofloxacin, 1205

Citrate-acetate bath

Electrodeposition of Co–Ni alloy from citrate-acetate bath on steel substrate, 914

Citric acid

Cerium(III) catalysis in acid bromate oxidation of citric acid in the presence of bromo-complex-forming metal ions, 165

Cobalt

Ultrasonic velocity and allied properties of manganese, cobalt and copper soaps in non-aqueous medium, 46

Cyclic voltammetric studies of some tris(diimine)-cobalt(II) complexes in dimethylformamide solution, 333

Cobalt-nickel alloy

Electrodeposition of Co–Ni alloy from citrate-acetate bath on steel substrate, 914

Cobalt(II)

Synthesis and characterization of mixed ligand complexes of cobalt(II) with 2-hydroxy-1-naphthaldehyde and salicylaldehyde, hydroxyaromatic ketones or β-diketones, 34

Synthesis and physicochemical studies of Mn^{II}, Co^{II}, Ni^{II} and Cu^{II} complexes with 2-acetyl thiophene thiosemicarbazone (L), 325

Synthesis, spectroscopic and magnetic properties of the first heterotrimetallic complexes of cobalt(II) featuring nonalkoxodistannate or -dititanate ligands, 532

Synthesis and physico-chemical studies of cobalt(II) complexes containing {2-(*o*-hydroxyphenyl)}-benzoxazole species, 538

Direct and derivative spectrophotometric determination of cobalt(II) with 2,4-dihydroxybenzaldehyde isonicotinoyl hydrazone, 706

Synthesis and mass spectral studies of mixed ligand complexes of Co^{II} with 2-hydroxybenzophenone and β-diketones, hydroxyaryl aldehydes or ketones, 742

Extraction chromatographic studies of cobalt(II) with aliquat-336, 828

New cobalt(II) tetraaza macrocyclic complexes : Synthesis, spectral and antimicrobial studies, 971

Cobalt(II) alkoxides

Reactions of later 3*d* divalent transition metal chlorides with metal alkoxides and characterization of novel heterobimetallic alkoxide coordination compounds, 856

Cobalt(III)

Substitution reactions of ligand bridged dinuclear complexes of cobalt(III) and chromium(III), 9

Synthesis, characterisation and coordination properties of 5-methyl-3-formylpyrazole ^{4}*N*-benzylthiosemicarbazone (HMPzNB) : Cobalt(III), nickel(II) and copper(II) complexes with a NNS donor system, 130

Kinetics and mechanism of complex formation between gallium(III) and *trans*-bis([(en)$_2$Co(H-malonato)$_2$]$^+$ in aqueous medium, 983

Colorimetry

Spectrophotometric determination of ezetimibe in pharmaceutical formulation, 945

Comparative evaluation

Search for suitable mobile phase in TLC analysis of different drugs of forensic interest and their gas liquid chromatographic experiment, 69

Compartmental ligands

Mononuclear and binuclear ruthenium(III) complexes of macrocyclic compartmental ligands : synthetic, spectral speciation, electrochemical behaviour and antimicrobial studies, 524

Complex equilibria

Effect of dielectric constant of urea-water medium on protonation constants of L-glutamic acid and L-methionine, 346

Complexation

Spectroscopic and equilibrium characterization of metal complexes of phenoxy acid herbicides, 283

Complexation behaviour

Studies on the complexation behaviour of copper(II) ions with polyamidoamine (PAMAM) dendron, 93

Complexometry

Homogeneity testing of china clay by complexometry and spectrophotometry using statistical technique, 396

Computation

HF and MP2 calculations on two Schiff base ligands and stability constant studies on some of their metal complexes, 1255

Conductivity

Effect of acrylic acid doping on the properties of chemically synthesized polyaniline, 176

Electrical conductivity of *s*-acetylthiocholine halides and perchlorate in *n*-propanol at 25 °C, 816

Conductometry

Conductometric investigations of thorium soaps, 804

Constant current electrolysis

Electrochemical reduction of *o*-nitrotoluene at glassy carbon and stainless steel electrode at different pH, 493

Contamination

Determination of drinking water-arsenic in nano gram level using flow injection analysis system atomic absorption spectrometry and an interpretation for the cause behind contamination, 1148

Copolymerization

Homo and copolymerization of *N*-(phenylamino)-maleimide : Synthesis and characterization, 1153

Copper

Ultrasonic velocity and allied properties of manganese, cobalt and copper soaps in non-aqueous medium, 46

Copper complexes

Electrochemical investigations on copper(II) complexes with quardidentate Schiff bases with O_2N_2 donor set, 872

Voltammetric studies of copper(II)-dithiocarbamate reaction and a differential pulse polarographic method for the determination of dithiocarbamates, 20

Studies on the complexation behaviour of copper(II) ions with polyamidoamine (PAMAM) dendron, 93

Copper(II)

Synthesis, characterisation and coordination properties of 5-methyl-3-formylpyrazole ^4N-benzylthiosemicarbazone (HMPzNB) : Cobalt(III), nickel(II) and copper(II) complexes with a NNS donor system, 130

Electrochemical studies on copper(II) complexes of ^4N-alkyl/arylthiosemicarbazones and *S*-alkyl/aryldithiocarbazates of 5-methyl-3-formylpyrazole, 227

Polymeric membrane ion-selective electrode for copper(II) ions based on Cu^{II}-cyclohexaneone thiosemicarbazone complex, 291

Synthesis and mass spectral studies of copper(II) complexes of 12-membered oxazamacrocycles, 319

Synthesis and physicochemical studies of Mn^{II}, Co^{II}, Ni^{II} and Cu^{II} complexes with 2-acetyl thiophene thiosemicarbazone (L), 325

Simultaneous second derivative spectrophotometric determination of copper(II) and nickel(II) using 1-phenyl-1,2-propanedione-2-oxime thiosemicarbazone, 474

Cyclic voltammetric studies of some bis(phenanthrolines)copper(II) complexes, 515

Synthesis, characterization and spectral studies of copper(II) complexes of *o*-ethyl and *o*-*t*-butylesters of hydrazine carboxylic acid, 934

A pulse polarographic method for the determination of primary and secondary amines and its application to the analysis of organic isocyanates, 1145

Copper(II, III) complexes

Effect of solvents on the electrochemical behaviour of copper(II, III) complexes with morpholinedithiocarbamato ligand, 1195

Copper(II) and zinc(II)

Synthesis and characterization of Ni^{II}, Cu^{II} and Zn^{II} complexes of tetraaza- and hexaazamacrocycles derived from α-diketones and polyamines, 236

Correlation

Kinetics and mechanism of the oxidation of substituted benzaldehydes by tetrabutylammonium tribromide, 582

Kinetics and mechanistic study of acid-catalysed hydrolysis of *p*-chlorophenyl-2-furohydroxaminc acid, 588

Correlation analysis

Kinetics and mechanism of the oxidative regeneration of carbonyl compounds from oximes by quinolinium bromochromate, 458

Corrosion

Emeraldine base conducting polymer coatings for protection of steels against corrosion, 152

Corrosion inhibition

Effect of acrylic acid doping on the properties of chemically synthesized polyaniline, 176

Coumarin derivatives

Synthesis and characterization of oxovanadium(IV), cobalt(II), nickel(II), copper(II) and palladium(II) complexes of some coumarin-based Schiff bases, 629

Crystal energy

Evaluation of Van der Waals dipole-dipole and dipole-quadrupole energies and crystal energies in copper, silver and thallium halides, 145

Crystalline state

Evaluation of crystalline state properties of alkali hydrides and deuterides, 820

A comparative study of crystalline state properties of alkali halides using the three standard potential models, 942

Cubebin

Antifungal activity of Cubebin from *Piper cubeba*, 823

Curcuminoids

Thiazolylazo derivatives of some unsaturated β-diketones and their metal complexes, 337

Metal chelates of 1,7-diindolyl-1,6-heptadiene-3,5-dione, 478

Curing

Synthesis, characterisation and curing of furan resins, 392

Cyanocyclophanes

AM1 and DFT calculation of dicyano derivatives of $[2_2](1,4)$-cyclophanes, 1104

Cyclic voltammetry

Voltammetric studies of copper(II)-dithiocarbamate reaction and a differential pulse polarographic method for the determination of dithiocarbamates, 20

Synthesis, characterisation and coordination properties of 5-methyl-3-formylpyrazole ^4N-benzylthiosemicarbazone (HMPzNB) : Cobalt(III), nickel(II) and copper(II) complexes with a NNS donor system, 130

Electrochemical studies on copper(II) complexes of ^4N-alkyl/arylthiosemicarbazones and *S*-alkyl/aryldithiocarbazates of 5-methyl-3-formylpyrazole, 227

Cyclic voltammetric studies of some tris-(diimine)cobalt(II) complexes in dimethylformamide solution, 333

Electrochemical reduction of *o*-nitrotoluene at glassy carbon and stainless steel electrode at different pH, 493

Cyclic voltammetric studies of some bis(phenanthrolines)-copper(II) complexes, 515

Electrochemical and electron paramagnetic resonance studies of some oxovanadium(IV) complexes with ONO donor Schiff base ligands, 647

Cyclic voltammetric behaviour of isatin on HMDE in different conditions, 688

Electrochemical investigations on copper(II) complexes with quardidentate Schiff bases with O_2N_2 donor set, 872

Effect of solvents on the electrochemical behaviour of copper(II, III) complexes with morpholinedithiocarbamato ligand, 1195

Cyclisation

Synthesis of novel 3-substituted derivatives of 2*H*-pyrano[2,3-*b*]pyridine-2-one moiety, 1048

Cycloaddition reaction

[4+2] Cycloaddition reaction : Synthesis and antifungal activities of 5-substituted-4-phenyl-1,3-thiazolo[3,2-*a*]pyrimidin-6-one derivatives, 1166

β-Cyclodextrin

Theoretical binding affinities and IR spectra of β-cyclodextrin to non-essential amino acids, 263

Cyclohexaneone

Polymeric membrane ion-selective electrode for copper(II) ions based on Cu^{II}-cyclohexaneone thiosemicarbazone complex, 291

Cyclooxygenase

Quantitative structure activity relationship studies on a series of 1,3-diaryl-4,5,6,7-tetrahydro-2*H*-isoindole derivatives as potent and selective Cox-2 inhibitors, 260

Cyclophanes

AM1 and DFT calculation of dicyano derivatives of $[2_2](1,4)$-cyclophanes, 1104

Cysteinamide

Theoretical determination of the ionization potential of cysteinamide, 50

Cysteinamine

Theoretical study on the reaction mechanism of proton transfer in cysteinamine, 139

L-Cysteine

Oxidation of L-cysteine by Fe^{III}-1,10-phenanthroline complex : A kinetic study, 813

Cystine

Oxidation of L-cysteine by Fe^{III}-1,10-phenanthroline complex : A kinetic study, 813

Cytotoxicity

Synthesis of a few novel bioactive 2-substituted amino-5-indol-3-oyl-4-phenylthiazoles, 1016

Degree of conversion

Mathematical validation of helix coil transition in polypeptides : A modelling approach, 1219

Dehydrating agent

Synthesis of 3,4,5,6,7,8-hexahydro-1-substituted phenyl isoquinoline and 3,4,5,6,7,8-hexahydro-1-substituted benzyl isoquinoline, 1045

Dehydroacetic acid

Synthesis, structural and thermal characterization and antifungal study of manganese(II), iron(III), cobalt(II) and copper(II) complexes of N,O donor ligands, 1086

Transition metal complexes of dehydroacetic acid chalcone : Synthesis, spectral, thermal and fungicidal study, 1096

Deltaic region

Engineering and physico-chemical properties of soils of deltaic region of West Bengal. Part-I [Physical (index and engineering) properties], 568

Deltamethrine

A new sensitive method for the determination of deltamethrine in environmental, agricultural and biological samples, 1176

Dendrobium gratiosissmum

A new bibenzyl compound from *Dendrobium gratiosissmum*, 714

Dendron

Studies on the complexation behaviour of copper(II) ions with polyamidoamine (PAMAM) dendron, 93

Density

Densities and apparent molar volumes of oxalic acid in water and in aqueous solutions of sucrose at 293.15, 303.15, 313.15 and 323.15 K, 184

Densities, viscosities and thermodynamic excess properties of ternary liquid mixtures of aniline + acetone + (benzene or + toluene or + carbon tetrachloride or + 1,4-dioxane) and their constituent binaries at 298.15 K, 250

Densities and refractive indexes of binary liquid mixtures of eucalyptol with some alcohols, 807

Dephosphorylation

Cationic micelle induced reaction kinetic on dephosphorylation of substituted mono phenyl phosphate ester in borate buffers of pH 8.0 to 10.0, 991

Derivative spectrophotometry

2-Hydroxy-3-methoxy benzaldehyde thiosemicarbazone (HMBATSC) as a spectrophotometric reagent for simultaneous second order derivative determination of nickel(II) and vanadium(V), 307

Direct and derivative spectrophotometric determination of cobalt(II) with 2,4-dihydroxybenzaldehyde isonicotinoyl hydrazone, 706

Detection

Simple methods of detection of a few ions in the presence of other ones of similar nature in qualitative analysis, 1253

DFT

Polarizabilities and energetics of boroxopyrrole homologues studied by *ab initio* and density functional methods, 83

DFT calculations

AM1 and DFT calculation of dicyano derivatives of $[2_2](1,4)$-cyclophanes, 1104

Diamagnetic

Coordination compounds of polystyrene-supported azo dye, 217

Dichloromethane

Extractive spectrophotometric determination of tungsten(VI) as its 3-hydroxy-2-(4-methoxyphenyl)-6-methyl-4-oxo-4*H*-1-benzopyran complex, 501

Dielectric relaxation

Temperature dependent dielectric relaxation study of triol-water mixtures using picosecond time domain technique, 354

Diffusion

Effect of organic solvents and concentration on electrochemical reduction behaviour of *N,N'*-(dibenzylidene)-*p*-phenylenediamine, 1223

Diffusion current

Study of thermodynamic parameters in electrochemical reduction of *N,N'*-(di-benzylidene)-*p*-phenylenediamine, 293

Dihydropyrimidinone

Microwave assisted synthesis and characterization of some new annulated pyrimidinone derivatives, 1234

α-Diketones

Synthesis and mass spectral studies of copper(II) complexes of 12-membered oxa-azamacrocycles, 319

Synthesis and spectral characterization of Cr^{III} and Fe^{III} complexes of dioxa-diazamacrocycles derived from α-diketones and 1,8-diamino-3,6-dioxaoctane, 850

β-Diketone

Synthesis and fast atom bombardment mass spectrometry of mixed ligand complexes $Cr(acac)L_2$, 632

Synthesis and mass spectral studies of mixed ligand complexes of Co^{II} with 2-hydroxybenzophenone and β-diketones, hydroxyaryl aldehydes or ketones, 742

1,3-Diketones/1,3-ketoesters

Synthesis and biological activity of 3*H*-1,5-benzodiazepine derivatives, 1261

Dimethylformamide

Thermophysical properties of binary mixtures of *N,N*-dimethylformamide with isomeric butanols at 298.15, 308.15 and 318.15 K, 37

Dinitrophenoxide

Synthesis, characterization and reactivity of tin(II) 2,4-dinitrophenoxide, 230

Dinuclear complex

Substitution reactions of ligand bridged dinuclear complexes of cobalt(III) and chromium(III), 9

Dioxomolybdenum(VI)

Synthesis, spectral, thermal, electrochemical and antibacterial studies of oxomolybdenum(V) and dioxomolybdenum(VI) complexes with 2,3-dimethyl-1-phenyl-4-(5-chloro-2-hydroxybenzylideneamino)-pyrazol-5-one, 329

Dioxouranium(VI)

Microbial screening of thorium(IV) and dioxouranium(VI) chelates with oxine and phenols, 637

Synthesis, spectral and thermal studies of dioxouranium(VI) complexes of Schiff bases derived from 2,3-dimethyl-1-phenyl-4-amino pyrazol-5-one, 861

Dipolar chromophore

Optical and electrical studies of thermally stable guest-host polymeric thin films, 759

Dipole moment

Polarizabilities and energetics of boroxopyrrole homologues studied by *ab initio* and density functional methods, 83

Dipole-dipole energy

Evaluation of Van der Waals dipole-dipole and dipole-quadrupole energies and crystal energies in copper, silver and thallium halides, 145

Dipole-quadrupole energy

Evaluation of Van der Waals dipole-dipole and dipole-quadrupole energies and crystal energies in copper, silver and thallium halides, 145

Disaccharides

Volumetric and viscometric studies of mono- and disaccharides in water and in mixed solvent (formamide + water) systems at 293.15, 303.15 and 313.15 K, 436

Distannate

Synthesis, spectroscopic and magnetic properties of the first heterotrimetallic complexes of cobalt(II) featuring nonaalkoxodistannate or -dititanate ligands, 532

Dithiazone

Kinetic studies on the reduction of dithiazone by sulphite ions in micellar media, 554

Dithiocarbamates

Voltammetric studies of copper(II)-dithiocarbamate reaction and a differential pulse polarographic method for the determination of dithiocarbamates, 20

Effect of solvents on the electrochemical behaviour of copper(II, III) complexes with morpholinedithiocarbamato ligand, 1195

Dithiocarbazates

Synthesis and spectral properties of palladium(II) complexes derived from 5-methyl-3-formylpyrazole thiosemicarbazones and *S*-alkyl/aryl dithiocarbazates, 544

Dititanate

Synthesis, spectroscopic and magnetic properties of the

first heterotrimetallic complexes of cobalt(II) featuring nonaalkoxodistannate or -dititanate ligands, 532

DNA

Synthesis, characterization and DNA studies of transition metal(II) complexes of Schiff base derived from *p*-aminoacetanilide and salicylaldehyde, 117

Electrochemical detection of DNA based on its interaction with safranine T, 171

DNA cleavage

DNA cleavage efficiency of transition metal(II) Schiff base complexes of 4-aminoantipyrine derivative : Synthesis, characterization and antimicrobial study, 652

DTPA

Equilibrium and synthetic studies of homo- and heterobinuclear complexes of DTPA with Zn^{II} and some transition and alkaline earth metal ions, 1199

Dye exhaustion

Synthesis and application of 2-nitro-2′,4′-dihydroxyazobenzene, 4-nitro-2′,4′-dihydroxyazobenzene and 2-carboxy-2′-hydroxyazonaphthol for dyeing of jute fabric, 1020

Dyeing

Synthesis and application of 2-nitro-2′,4′-dihydroxyazobenzene, 4-nitro-2′,4′-dihydroxyazobenzene and 2-carboxy-2′-hydroxyazonaphthol for dyeing of jute fabric, 1020

Dye-reductant

Use of rose bengal-EDTA system for the generation of electricity in a photogalvanic cell, 181

Dynamic viscosity

Volumetric, acoustic, viscometric and spectroscopic properties for binary mixtures of dipropylene glycol dimethyl ether + *n*-alkylamine mixtures at 298.15 K, 661

Dysprosium myristate soap

Micellization and conductance behaviour of dysprosium myristate and stearate soaps in methanol, 490

Dysprosium soap

Chemo-physical properties of dysprosium myristate and stearate soaps, 149

Dysprosium stearate soap

Micellization and conductance behaviour of dysprosium myristate and stearate soaps in methanol, 490

Electrochemical

Effect of organic solvents and concentration on electrochemical reduction behaviour of *N,N′*-(dibenzylidene)-*p*-phenylenediamine, 1223

Electrochemical behaviour

Electrochemical behaviour of 5-benzyl-4-(4′-methylphenyl)-4*H*-1,2,4-triazole-3-thiol by voltammetry, 1024

Electrochemical reactions

Electrochemical reactions at sacrificial electrodes. Part-XX. Synthesis of coordination compounds of antimony(III) alkoxides, 25

Electrochemical reduction

Electrochemical reduction of *o*-nitrotoluene at glassy carbon and stainless steel electrode at different pH, 493

Electrochemical study

Electrochemical studies on copper(II) complexes of ^{4}N-alkyl/arylthiosemicarbazones and *S*-alkyl/aryldithiocarbazates of 5-methyl-3-formylpyrazole, 227

Electrochemical technique

Electrochemical reactions at sacrificial electrodes. Part-XIX. Synthesis of antimony(III) alkoxides, 135

Electrochemistry

Electrochemical detection of DNA based on its interaction with safranine T, 171

Cyclic voltammetric studies of some tris(diimine)-cobalt(II) complexes in dimethylformamide solution, 333

Cyclic voltammetric studies of some bis(phenanthrolines)-copper(II) complexes, 515

Coupling of arylamine with coordinated naphthylazoimidazole in palladium(II) complexes. Spectroscopic and electrochemical studies, 623

Electrochemical and electron paramagnetic resonance studies of some oxovanadium(IV) complexes with ONO donor Schiff base ligands, 647

Electrochemical investigations on copper(II) complexes with quardidentate Schiff bases with O_2N_2 donor set, 872

Effect of solvents on the electrochemical behaviour of copper(II, III) complexes with morpholinedithiocarbamato ligand, 1195

Electrodeposition

Electrodeposition of Co-Ni alloy from citrate-acetate bath on steel substrate, 914

Electrode potential

Effect of 1.10-phenanthroline on the graft polymerization of vinyl monomers onto guar gum in presence of Fenton's reagent, 88

Electrode reaction

Study of mixed ligand complexes of Zn^{II} with some antibiotics and vitamin-B_1 drugs. Kinetics of electrode reactions, 702

Electrokinetic reactions

Study for dependence of transition state with applied potential in electrokinetic reactions of [Mn-antibiotics-cephalothin] system vis-a-vis kinetics of electrode reactions, 96

Electron diffraction

Effect of sonication on the structure of hydrogenated amorphous carbon obtained through the pyrolysis of benzene, 370

Electron donor-acceptor complex

Kinetic studies on the reactions of *O*-(2′,4′-dinitrophenyl)-1,7,7-trimethylbicyclo [2.2.1]heptan-1-one oxime with nucleophiles in aprotic solvents – mechanism for the uncatalysed pathway, 365

Electron paramagnetic resonance spectroscopy

Electrochemical and electron paramagnetic resonance studies of some oxovanadium(IV) complexes with ONO donor Schiff base ligands, 647

Electron transfer reactions

Kinetics and mechanism of electron-transfer reactions : Oxidation of pyruvic acid by peroxomonosulphuric acid in acid aqueous medium, 897

Electronic arrangement

An electronic arrangement of the periodic table for assigning ideal electronic configuration of the elements, 204

Electronic configuration

An electronic arrangement of the periodic table for assigning ideal electronic configuration of the elements, 204

Electronic spectra

Synthesis and characterization of mixed ligand complexes of cobalt(II) with 2-hydroxy-1-naphthaldehyde and salicylaldehyde, hydroxy-aromatic ketones or β-diketones, 34

Investigations on some tridentate Schiff base metal complexes, 323

Synthesis and spectroscopic studies of Cr^{III}, Fe^{III} and Co^{II} complexes of hexaazamacrocycles, 1202

Electrophilic

Synthesis, characterization and biological screening of some new pyridine derivatives, 785

Electroreduction

Cyclic voltammetric behaviour of isatin on HMDE in different conditions, 688

Electrosynthesis

Electrosynthesis and characterisation of CdSeHgTl thin films, 407

Emeraldine base

Emeraldine base conducting polymer coatings for protection of steels against corrosion, 152

Energetics

Polarizabilities and energetics of boroxopyrrole homologues studied by *ab initio* and density functional methods, 83

Engineering properties

Engineering and physico-chemical properties of soils of deltaic region of West Bengal. Part-I [Physical (index and engineering) properties], 568

Epoxides

Oxidation of olefins, 902

Equilibrium

Equilibrium and synthetic studies of homo- and heterobinuclear complexes of DTPA with Zn^{II} and some transition and alkaline earth metal ions, 1199

Erythrose

Kinetics and mechanism of oxidation of L-sorbose by

tetraethylammonium chlorochromate in aqueous acetic acid, 1162

Etioporphyrin

Synthesis, spectroscopic and electrochemical studies of axially ligated aluminium(III) etioporphyrins, 640

Excess property

Computation of excess Gibbs free energy of activation, Grunberg-Nissan interaction parameter and rheochor for binary solutions at different temperatures, 487

Extraction

A sensitive, selective and extractive spectrophotometric determination of tungsten(VI) using 3-hydroxy-2-phenyl-4-oxo-4*H*-1-benzopyran, 1052

Ezetimibe

Spectrophotometric determination of ezetimibe in pharmaceutical formulation, 945

FAB-mass

Synthesis and physico-chemical studies of cobalt(II) complexes containing {2-(*o*-hydroxyphenyl)}-benzoxazole species, 538

Fennel

Antioxidant potential of fennel (*Foeniculum vulgare* Mill.), 948

Fenton's reagent

Effect of 1,10-phenanthroline on the graft polymerization of vinyl monomers onto guar gum in presence of Fenton's reagent, 88

Photo-Fenton degradation of sunset yellow FCF catalyzed by aromatic additives, 996

FIAS-ASS

Determination of drinking water-arsenic in nano gram level using flow injection analysis system atomic absorption spectrometry and an interpretation for the cause behind contamination, 1148

Flavone

Novel flavone glycoside from *Ougeinia dalbergioides* (Benth.), 303

Flavonoids

Flavonoids of *Zizyphus* species, 297

Flavonol glycoside

New biologically active flavonol glycoside from *Cassia sophera* Linn., 683

Flumequine

Synthesis and characterization of metal complexes of flumequine, oxolinic acid, ofloxacin and ciprofloxacin, 1205

Fluoride ion

Kinetic and thermodynamic investigations of adsorption of fluoride onto activated *Aloe vera* carbon, 1114

Fly ash

Some characteristics of Orissa fly ash with reference to mineral recovery, 603

Folin-Ciocalteu reagent

Spectrophotometric determination of ezetimibe in pharmaceutical formulation, 945

Free energy

Spectroscopic and equilibrium characterization of metal complexes of phenoxy acid herbicides, 283

Free radicals

Preparation, polymerization and characterization of some new maleimides, 385

Homo and copolymerization of *N*-(phenylamino)-maleimide : Synthesis and characterization, 1153

Free-swell index

Comparative study on the geographical, physical and engineering properties of soils of West Bengal. Part-I, 559

Freundlich adsorption isotherms

Effect of ionic strength on adsorption of lead in soils of Aligarh district, 378

Furan resins

Synthesis, characterisation and curing of furan resins, 392

Furfural

Theoretical and solution chemistry of metal complexes of furfural, 643

HF and MP2 calculations on two Schiff base ligands and stability constant studies on some of their metal complexes, 1255

Synthesis and characterization of some transition metal complexes with 4-(phenyl/*p*-bromophenyl)thiazolyl hydrazone of furfural, 1092

Galactosyl bromide

On thiogalactosides : Synthesis of *S*-tetra-*O*-acetyl-β-D-galactosyl-1-aryl isothiocarbamides, 1042

Gallium(III)

Kinetics and mechanism of complex formation between gallium(III) and *trans*-bis([en)$_2$Co(H-malonato)$_2$]$^+$ in aqueous medium, 983

GC

Search for suitable mobile phase in TLC analysis of different drugs of forensic interest and their gas liquid chromatographic experiment, 69

GC-MS

Identification of explosives and constituents of fuel oil in ANFO using HPTLC and GC-MS technique, 74

Gel permeation chromatography

Homo and copolymerization of *N*-(phenylamino)-maleimide : Synthesis and characterization, 1153

Geographical aspects

Comparative study on the geographical, physical and engineering properties of soils of West Bengal. Part-1, 559

Germaformaldehyde derivatives

Quantum chemical predictions of vibrational mode analysis of germaformaldehyde and related molecules, 448

Germanium(IV)

Synthesis and characterization of new *N*-arylsalicylaldiminates of germanium(IV) and tin(IV), 844

Gibb's free energy

Computation of excess Gibbs free energy of activation, Grunberg-Nissan interaction parameter and rheochor for binary solutions at different temperatures, 487

Glass transition

Temperature dependent dielectric relaxation study of triol-water mixtures using picosecond time domain technique, 354

Glassy carbon electrode

Electrochemical behaviour of 5-benzyl-4-(4′-methylphenyl)-4*H*-1,2,4-triazole-3-thiol by voltammetry, 1024

Glimepiride

Simultaneous spectrophotometric estimation of rosiglitazone maleate and glimepiride in tablets, 1179

D-Glucose

Kinetics and mechanism of catalysed and uncatalysed oxidation of D-glucose by *N*-bromosuccinimide in aqueous acidic medium, 777

Glutamic acid

Effect of dielectric constant of urea-water medium on protonation constants of L-glutamic acid and L-methionine, 346

Glyceroi

Temperature dependent dielectric relaxation study of triol-water mixtures using picosecond time domain technique, 354

Glycoside

Novel flavone glycoside from *Ougeinia dalbergioides* (Benth.), 303

***N*-Glycosylated cyclic compounds**

Synthesis and antimicrobial activity of 4-aryl-5-tetra-*O*-benzoyl-β-D-glucopyranosylimino-3-thio-1,2,4-dithiazolidines, 711

Goat brain tissue

Aminopeptidase B : Regional and subcellular distribution in goat brain tissue, 598

Gradient elution

A rapid and simple HPLC method for the routine laboratory analysis of Sudan (I to IV) dyes in chilli and chilli products, 926

Grafting

Effect of 1,10-phenanthroline on the graft polymerization of vinyl monomers onto guar gum in presence of Fenton's reagent, 88

Grain size

Comparative study on the geographical, physical and engineering properties of soils of West Bengal. Part-1, 559

Growth regulators

Spectroscopic and equilibrium characterization of meta complexes of phenoxy acid herbicides, 283

Guar gum

Effect of 1,10-phenanthroline on the graft polymerization of vinyl monomers onto guar gum in presence of Fenton's reagent, 88

Guest-host polymeric thin film

Optical and electrical studies of thermally stable guest-host polymeric thin films, 759

^{1}H NMR spectra

Synthesis and characterization of Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes of 2,13-dimethyl-3,14-diethyl/propyl/phenyl-1,4,12,15-tetraazacyclodocosa-1,3,12,14-tetraene, 1191

Hafnium(IV)

Mono- and bis(cyclopentadienyl)hafnium(IV) derivatives with alkyl xanthates, 431

Hammett equation

Kinetics of substitution reactions of hexacoordinate cobalt(III) complexes with phenoxyacetic acid herbicides, 273

Hanging mercury drop electrode

Cyclic voltammetric behaviour of isatin on HMDE in different conditions, 688

Heliotropium indicum

A new isoflavone glycoside from *Heliotropium indicum*, 1027

Helix Coil transition

Mathematical validation of helix coil transition in polypeptides : A modelling approach, 1219

Helix structure

Theoretical study on relations between the helix structure and optical rotation of alanine, 884

Henderson's equation

Kinetics of substitution reactions of hexacoordinate cobalt(III) complexes with phenoxyacetic acid herbicides, 273

Herbicides

Kinetics of substitution reactions of hexacoordinate cobalt(III) complexes with phenoxyacetic acid herbicides, 273

Heterobimetallic alkoxides

Reactions of later 3*d* divalent transition metal chlorides with metal alkoxides and characterization of novel heterobimetallic alkoxide coordination compounds, 856

Heterocyclics

Synthesis of a few novel bioactive 2-substituted amino-5-indol-3-oyl-4-phenylthiazoles, 1016

Heterocycles

Synthesis and biological activity of some benzothiazolyl thiazolidinones, 498

Synthesis and characterization of Ag^{I}, Tl^{I}, Zn^{II}, Cd^{II}, Hg^{II}, Pd^{II}, Co^{II} and Ni^{II} complexes with 4-salicylideneamino-3-mercapto-6-*t*-butyl-1,2,4-triazin(4*H*)-5-one, 746

Metal-catalysed reactions in the synthesis of heterocyclic structures, 1063

Heterocyclic acid

Kinetics and mechanistic study of acid-catalysed hydrolysis of *p*-chlorophenyl-2-furohydroxamic acid, 588

Heterotrimetallic complexes

Synthesis, spectroscopic and magnetic properties of the first heterotrimetallic complexes of cobalt(II) featuring nonaalkoxodistannate or -dititanate ligands, 532

Hexametallic macrocycle

Silver complex of 2-methyl-pyrimidine. Two dimensional coordination polymer, 978

Hg–S bond

Synthesis, structural aspects and ligation behaviour of phenylmercury(II) dithio complexes having Hg–S bonds, 867

HOMO- LUMO RHF

Polarizabilities and energetics of boroxopyrrole homologues studied by *ab initio* and density functional methods, 83

Homogeneity testing

Homogeneity testing of china clay by complexometry and spectrophotometry using statistical technique, 396

HPTLC

Identification of explosives and constituents of fuel oil in ANFO using HPTLC and GC-MS technique, 74

Hydrangea macrophylla

Phytochemical and pharmacological studies on *Hydrangea macrophylla*, 1026

Hydrazine carboxylic acid

Synthesis, characterization and spectral studies of copper(II) complexes of *o*-ethyl and *o*-*t*-butylesters of hydrazine carboxylic acid, 934

Hydrazones

A mild and efficient cleavage of oximes, hydrazones and semicarbazones using aqueous solution of zinc tetrafluoroborate, 496

Hydrido compounds

Hydrido Ru^{II} organometallics; synthesis, spectral and catalytic hydrogenation studies, 733

H_2O-assisted system

Theoretical study on the reaction mechanism of proton transfer in cysteinamine, 139

Indole

Metal chelates of 1,7-diindolyl-1,6-heptadiene-3,5-dione, 478

Industrial processing

Industrial processing of rice husk for environment, energy and economy, 1246

Infrared spectra

Infrared spectra of charge transfer complexes of bis(N-H-salicylaldiminato)Cu^{II}, 750

Interaction parameter

Computaion of excess Gibbs free energy of activation. Grunberg-Nissan interaction parameter and rheochor for binary solutions at different temperatures, 487

Interferometry

Comparative study of intermolecular interactions by acoustic properties of α-bromoacetophenones and coumaran-3-ones in ethanol and dioxane solvents, 159

Studies on the effect of different ligands and percent composition of organic solvents on solvent-solute interaction by interferometric technique, 389

Intermolecular interaction

Theoretical evaluation of viscosity in binary solutions of acetophenone at 308.15 K, 1130

Iodine

Iodine catalyzed selective *O*-alkylation of alcohols with orthoesters, 189

Ionic micelle

Cationic micelle induced reaction kinetic on de-phosphorylation of substituted mono phenyl phosphate ester in borate buffers of pH 8.0 to 10.0, 991

Ionic strength

Effect of ionic strength on adsorption of lead in soils of Aligarh district, 378

Ionization potential

Theoretical determination of the ionization potential of cysteinamide, 50

Iron(III)

Oxidation of L-cysteine by Fe^{III}-1,10-phenanthroline complex : A kinetic study, 813

Synthesis and spectral characterization of Cr^{III} and Fe^{III} complexes of dioxa-diazamacrocycles derived from α-diketones and 1,8-diamino-3,6-dioxaoctane, 850

Isatin

Cyclic voltammetric behaviour of isatin on HMDE in different conditions, 688

Isoflavone glycoside

New isoflavone glycoside from *Heliotropium indicum*, 1027

Isomeric butanol

Thermophysical properties of binary mixtures of *N,N*-dimethylformamide with isomeric butanols at 298.15, 308.15 and 318.15 K, 37

Isomoniliformine

A new bibenzyl compound from *Dendrobium gratiosissmum*, 714

Isoquinoline derivatives

Synthesis of 3,4,5,6,7,8-hexahydro-1-substituted phenyl isoquinoline and 3,4,5,6,7,8-hexahydro-1-substituted benzyl isoquinoline, 1045

Isoxazole

Synthesis and biological evaluation of 3-(phthalimidomethyl)-4-(5-substituted isoxazoline and pyrazoline) substituted benzanilides, 1011

Synthesis antitubercular and antimicrobial activities of some new pyrazolines and isoxazole derivatives, 1140

Jute fabric

Synthesis and application of 2-nitro-2′,4′-dihydroxy-azobenzene, 4-nitro-2′,4′-dihydroxyazobenzene and 2-carboxy-2′-hydroxyazonaphthol for dyeing of jute fabric, 1020

Kaempferol

Flavonoids of *Zizyphus* species, 297

Ketene-imines

Design, systhesis and *in vitro* antibacterial studies of some biologically significant *N*-3-chloro-4-[2′-hydroxy-5′-(phenylazo)phenyl]azetidin-2-ones, 193

β-Ketoanilide

Synthesis and spectral characterization of Knoevenagel condensate β-ketoanilide and its transition metal(II) complexes, 29

Kinetics

Kinetics and mechanism of the reaction of hydroxopenta-aquarhodium(III) ion with L-proline in aqueous solution, 280

Kinetics and mechanism of the oxidation of ethane diol and butane-2,3-diol by tetrachloroaurate(III) in acetate buffer medium, 462

Oxidation kinetics of some sulfoxides with *N,N*-dibromobenzene sulfonamide, 679

Kinetics and mechanism of electron-transfer reactions : Light induced bleaching of methyl orange by peroxodisulphate in the presence of $[Ru(bipy)_3^{2+}]$ photocatalyst in aqueous solution, 764

Kinetics and mechanism of electron transfer reactions oxidation of mannitol by chromium(VI) in acid perchlorate medium, 1210

Kinetics and mechanism

Kinetics and mechanism of complex formation between gallium(III) and *trans*-bis($[(en)_2Co(H\text{-malonato})_2]^+$ in aqueous medium, 983

Knoevenagel condensate

Synthesis and spectral characterization of Knoevenagel condensate β-ketoanilide and its transition metal(II) complexes, 29

Knoevenagel condensation

Microwave assisted Knoevenagel condensation : A facile method for the synthesis of 5-arylidine barbituric acid derivatives under solvent free conditions, 1035

Lactic acid

Mechanism and evaluation of individual kinetic and thermodynamic parameters of acid bromate-lactic acid redox reaction, 548

Lactose

Light induced lactose/maltose – methylene blue reaction in flow reactors, 468

Lactosyl

Synthesis and antimicrobial activity of *N*-lactosylated isothiobiurets, 1266

β-Lactosyl compounds

Synthesis of 3-hepta-*O*-acetyl-β-lactosylimino-4-aryl-5-phenylimino-1,2,4-dithiazolidines (hydrochlorides), 1029

Lead adsorption

Effect of ionic strength on adsorption of lead in soils of Aligarh district, 378

Lead(II) removal

Polymerized latik for retrieval of lead(II) from aqueous systems, 770

Leguminosae

Novel flavone glycoside from *Ougeinia dalbergioides* (Benth.), 303

New biologically active flavonol glycoside from *Cassia sophera* Linn., 683

Studies on catechu : Isolation of (+)-catechin from different parts of *Acacia catechu*, 1258

Lewis acid catalyst

Synthesis of 3,4,5,6,7,8-hexahydro-1-substituted phenyl isoquinoline and 3,4,5,6,7,8-hexahydro-1-substituted benzyl isoquinoline, 1045

LiBr

LiBr catalyzed, microwave enhanced synthesis of 5-arylidene rhodanine under solvent free conditions, 1239

Light induced reactions

Light induced lactose/maltose – methylene blue reaction in flow reactors, 468

Linear sweep voltammetry

Electrochemical detection of DNA based on its interaction with safranine T, 171

Linear sweep voltammetric determination of chondroitin sulfate based on its interaction with pyronine B, 717

Liquid chromatography

A rapid and simple HPLC method for the routine laboratory analysis of Sudan (I to IV) dyes in chilli and chilli products, 926

Synthesis of new mesogens : 4-(4′-*n*-alkoxy benzoyl-oxy)-β-benzoyl styrene, 774

Synthesis and study of new mesogenic homologous series : 4-(4′-*n*-Alkoxy benzoyloxy)-naphthylazo-4″-acetylbenzenes, 1122

Liquid mixtures

Densities, viscosities and thermodynamic excess properties of ternary liquid mixtures of aniline + acetone + (benzene or + toluene or + carbon tetrachloride or + 1,4-dioxane) and their constituent binaries at 298.15 K, 250

Densities and refractive indexes of binary liquid mixtures of eucalyptol with some alcohols, 807

LLCT

Coupling of arylamine with coordinated naphthyl-azoimidazole in palladium(II) complexes. Spectroscopic and electrochemical studies, 623

Lower oxyacid

Kinetics and mechanism of the oxidation of lower oxyacids of phosphorous by morpholinium chlorochromate, 892

Macrocycles

Synthesis and mass spectral studies of copper(II) complexes of 12-membered oxa-azamacrocycles, 319

Macrocyclic complexes

Synthesis and characterization of Ni^{II}, Cu^{II} and Zn^{II} complexes of tetraaza- and hexaazamacrocycles derived from α-diketones and polyamines, 236

Synthesis and characterization of Mg^{II}, Ca^{II}, Sr^{II} and Ba^{II} complexes of 2,13-dimethyl-3,14-diethyl/propyl/phenyl-1,4,12,15-tetraazacyclodocosa-1,3,12,14-tetraene, 1191

Synthesis and spectroscopic studies of Cr^{III}, Fe^{III} and Co^{II} complexes of hexaazamacrocycles, 1202

Macrocyclic ligand

Synthesis and spectroscopic studies of transition metal complexes with 1,5:10,14-dimetheno-[1,4,8,11]-tetraazatetradeca-1,3,5,6,8,10,12,14,15,17-decane a fourteen membered tetradentate macrocyclic ligand, 223

Magnetic moments

Synthesis and spectroscopic studies of Cr^{III}, Fe^{III} and Co^{II} complexes of hexaazamacrocycles, 1202

Maleimides

Preparation, polymerization and characterization of some new maleimides, 385

Maltose

Light induced lactose/maltose – methylene blue reaction in flow reactors, 468

Manganese

Ultrasonic velocity and allied properties of manganese, cobalt and copper soaps in non-aqueous medium, 46

Manganese(II)

Synthesis and physicochemical studies of Mn^{II}, Co^{II}, Ni^{II} and Cu^{II} complexes with 2-acetyl thiophene thiosemicarbazone (L), 325

Manganese(III)

Synthesis and characterization of tris[*N*-(2-oxo-1-naphthylidene)glycinato]manganese(III) and its reaction products with oxygen, nitrogen and/or sulphur donors, 418

Mannitol

Kinetics and mechanism of electron transfer reactions oxidation of mannitol by chromium(VI) in acid perchlorate medium, 1210

Mauritine-K

Mauritine-K, A new antifungal cyclopeptide alkaloid from *Zizyphus mauritiana*, 781

Mean field theory

T-X Phase diagram of $(NH_4)_2SO_4/H_2O$, 350

Mechanism

Biginelli reaction, 959

Memorial Lecture

Metal-catalysed reactions in the synthesis of heterocyclic structures, 1063

Mesogens

Synthesis and study of new mesogenic homologous series : 4-(4′-*n*-Alkoxy benzoyloxy)-napthylazo-4″-acetylbenzenes, 1122

Mesomorphism

Synthesis of new mesogens : 4-(4′-*n*-alkoxy benzoyloxy)-β-benzoyl styrene, 774

Synthesis and study of new mesogenic homologous series : 4-(4′-*n*-Alkoxy benzoyloxy)-napthylazo-4″-acetylbenzenes, 1122

Metal chelates

Metal chelates of 1,7-diindolyl-1,6-heptadiene-3,5-dione, 478

Metal complexes

Thiazolylazo derivatives of some unsaturated β-diketones and their metal complexes, 337

Phenylazo derivatives of some unsaturated β-diketones and their metal complexes, 518

Theoretical and solution chemistry of metal complexes of furfural, 643

Synthesis and characterization of Ag^{I}, Tl^{I}, Zn^{II}, Cd^{II}, Hg^{II}, Pd^{II}, Co^{II} and Ni^{II} complexes with 4-salicylideneamino-3-mercapto-6-*t*-butyl-1,2,4-triazin(4*H*)-5-one, 746

Graphical methods of simultaneous determination of molar absorptivity and stability constant of 1 : 1 metal complex using spectrophotometric data : Fe^{III}-5-nitrosalicylic acid complex, 1126

Metal complexes of fluoroquinolones

Synthesis and characterization of metal complexes of flumequine, oxolinic acid, ofloxacin and ciprofloxacin, 1205

Metal extraction

Some characteristics of Orissa fly ash with reference to mineral recovery, 603

Metal ions

Removal of chromium(III), iron(III) and nickel(II) by synthetic analogue of mica mineral sodium potassium fluorophlogopite, 381

Schiff base complexes of some metal ions with vanillin and amino acids, 739

Metal nitrates

A study on viscosities of some bivalent transition metal nitrates and magnesium nitrate in aqueous and binary aqueous mixtures of DMF at different temperatures, 577

Metalloprotease

Aminopeptidase B : Regional and subcellular distribution in goat brain tissue, 598

Methionine

Effect of dielectric constant of urea-water medium on protonation constants of L-glutamic acid and L-methionine, 346

Effect of sodium dodecyl sulphate micelles on the oxidation of L-methionine by chromium(VI) in perchloric acid medium, 373

Methyl orange

Kinetics and mechanism of electron-transfer reactions : Light induced bleaching of methyl orange by peroxodisulphate in the presence of $[Ru(bipy)_3^{2+}]$ photocatalyst in aqueous solution, 764

2-Methylpyrimidine

Silver complex of 2-methyl-pyrimidine. Two dimensional coordination polymer, 978

Methylene blue reactions

Light induced lactose/maltose – methylene blue reaction in flow reactors, 468

Metoprolol

Simultaneous estimation of ramipril and metoprolol tartrate in combined dosage forms, 609

Micellar media

Kinetic studies on the reduction of dithiazone by sulphite ions in micellar media, 554

Micellar phase

Kinetics and reaction mechanism of the controlled oxidation of some industrial alcohols by haloamines, 1135

Micelles

Effect of sodium dodecyl sulphate micelles on the oxidation of L-methionine by chromium(VI) in perchloric acid medium, 373

Micellization and conductance behaviour of dysprosium myristate and stearate soaps in methanol, 490

Microbial activity

Synthesis, antitubercular and antimicrobial activities of some new pyrazolines and isoxazole derivatives, 1140

Synthesis and evaluation of pharmacological activity of some new aminopyrimidine and thiopyrimidine derivatives, 1169

Microwave

Biginelli reaction, 959

LiBr catalyzed, microwave enhanced synthesis of 5-arylidene rhodanine under solvent free conditions, 1239

Microwave irradiation

Acetylation of some organic compounds under microwave irradiation, 188

1,3-Dipolar cycloadditions. Part-XIII : Microwave irradiation assisted synthesis and spectroscopic investigations of *C*-aryl-*N*-phenyl and *C*-aryl-*N*-(4'-chlorophenyl)nitrones, 1004

Microwave assisted Knoevenagel condensation : A facile method for the synthesis of 5-arylidine barbituric acid derivatives under solvent free conditions, 1035

Microwave assisted synthesis and characterization of some new annulated pyrimidinone derivatives, 1234

Minerals

Some characteristics of Orissa fly ash with reference to mineral recovery, 603

Mixed electrolyte

Viscometric and thermodynamic study of bi-univalent mixed electrolyte systems in non-aqueous solvents at 293.15, 303.15 and 313.15 K, 876

Mixed ligand complexes

Synthesis and characterization of mixed ligand complexes of cobalt(II) with 2-hydroxy-1-naphthaldehyde and salicylaldehyde, hydroxyaromatic ketones or β-diketones, 34

Synthesis, characterization and antifungal activity of mixed ligand complexes of Co^{II}, Ni^{II} and Cu^{II} with *cis*-3,7-dimethyl-2,6-octadiensemicarbazone and amino acids, 341

Synthesis and fast atom bombardment mass spectrometry of mixed ligand complexes $Cr(acac)L_2$, 632

Study of mixed ligand complexes of Zn^{II} with some antibiotics and vitamin-B_1 drugs. Kinetics of electrode reactions, 702

Synthesis and mass spectral studies of mixed ligand complexes of Co^{II} with 2-hydroxybenzophenone and β-diketones, hydroxyaryl aldehydes or ketones, 742

Synthesis and characterization of nitrosylpseudohalochromium(I) complexes with morpholinomethyl urea and related ligands, 839

A quantitative equilibrium studies on mixed ligand complexes of cadmium with nitrogen, oxygen and sulphur containing drugs and amino acids, 987

Mixed polyethers

Oxidation of olefins, 902

Mixed solvents

Volumetric and viscometric studies of mono- and disaccharides in water and in mixed solvent (formamide + water) systems at 293.15, 303.15 and 313.15 K, 436

Acoustical study of substituted hydroxy-1,3-propandione in dioxan-water mixtures in different concentrations, 480

A study on viscosities of some bivalent transition metal nitrates and magnesium nitrate in aqueous and binary aqueous mixtures of DMF at different temperatures, 577

Molar absorptivity

Graphical methods of simultaneous determination of molar absorptivity and stability constant of 1 : 1 metal complex using spectrophotometric data : Fe^{III}-5-nitrosalicylic acid complex, 1126

Molar volume

Densities and apparent molar volumes of oxalic acid in water and in aqueous solutions of sucrose at 293.15, 303.15, 313.15 and 323.15 K, 184

Volumetric and viscometric studies of mono- and disaccharides in water and in mixed solvent (formamide + water) systems at 293.15, 303.15 and 313.15 K, 436

Viscometric and thermodynamic study of bi-univalent mixed electrolyte systems in non-aqueous solvents at 293.15, 303.15 and 313.15 K, 876

Molecular interaction

Molecular interaction studies of caffeine in aqueous metal chloride solutions at 308.15 K, 483

Molecularity

Misuse of the term 'molecularity' as applied to elementary reactions : An opinion, 932

Morpholinium chlorochromate

Kinetics and mechanism of the oxidation of lower oxyacids of phosphorous by morpholinium chlorochromate, 892

Nanoparticles

Interaction of paraquat with electrochemically synthesized silver nanoparticles, 698

Nebivolol hydrochloride

UV and extractive spectrophotometric methods for the determination of Nebivolol hydrochloride in tablets, 1242

Nematic

Synthesis and study of new mesogenic homologous series : 4-(4′-*n*-alkoxy benzoyloxy)naphthyl azo benzenes, 658

Synthesis of new mesogens : 4-(4′-*n*-alkoxy benzoyloxy)-β-benzoyl styrene, 774

Synthesis and study of new mesogenic homologous series : 4-(4′-*n*-Alkoxy benzoyloxy)-napthylazo-4″-acetylbenzenes, 1122

Nickel(II)

Spectral and physicochemical studies of Ni^{II} complexes with some nitrogen-oxygen and nitrogen-sulphur donor ligands, 55

Synthesis, characterisation and coordination properties of 5-methyl-3-formylpyrazole ^4N-benzylthiosemicarbazone (HMPzNB) : Cobalt(III), nickel(II) and copper(II) complexes with a NNS donor system, 130

Synthesis and characterization of Ni^{II}, Cu^{II} and Zn^{II} complexes of tetraaza- and hexaazamacrocycles derived from α-diketones and polyamines, 236

2-Hydroxy-3-methoxy benzaldehyde thiosemicarbazone (HMBATSC) as a spectrophotometric reagent for simultaneous second order derivative determination of nickel(II) and vanadium(V), 307

Synthesis and physicochemical studies of Mn^{II}, Co^{II}, Ni^{II} and Cu^{II} complexes with 2-acetyl thiophene thiosemicarbazone (L), 325

Simultaneous second derivative spectrophotometric determination of copper(II) and nickel(II) using 1-phenyl-1,2-propanedione-2-oxime thiosemicarbazone, 474

Nitrosalicyclic acid

Graphical methods of simultaneous determination of molar absorptivity and stability constant of 1 : 1 metal complex using spectrophotometric data : Fe^{III}-5-nitrosalicylic acid complex, 1126

Nitrosyl complexes

Synthesis and characterization of nitrosylpseudohalochromium(I) complexes with morpholinomethyl urea and related ligands, 839

Non-aqueous solvents

Viscometric and thermodynamic study of bi-univalent mixed electrolyte systems in non-aqueous solvents at 293.15, 303.15 and 313.15 K, 876

Non-polar solvent

Studies on physico-chemical properties with the relaxation phenomena of some normal aliphatic alcohols in non polar solvent under Giga Hertz electric field at a single temperature, 241

Obitnary

Professor Sushil K. Mukherjee, 504

Ofloxacin

Synthesis and characterization of metal complexes of flumequine, oxolinic acid, ofloxacin and ciprofloxacin, 1205

Olefins

Oxidation of olefins, 902

Optical conductivity

Infrared spectra of charge transfer complexes of bis(N-H-salicylaldiminato)Cu^{II}, 750

Optical rotation

Theoretical study on relations between the helix structure and optical rotation of alanine, 884

Orchidaceae

A new bibenzyl compound from *Dendrobium gratiosissmum*, 714

Order of a reaction

Misuse of the term 'molecularity' as applied to elementary reactions : An opinion, 932

Organic acceptors

Infrared spectra of charge transfer complexes of bis(N-H-salicylaldiminato)Cu^{II}, 750

Organic isocyanates

A pulse polarographic method for the determination of primary and secondary amines and its application to the analysis of organic isocyanates, 1145

Organohafnium compounds

Mono- and bis(cyclopentadienyl)hafnium(IV) derivatives with alkyl xanthates, 431

Organomercurials

Carbon-carbon bond formation via palladium catalyzed reactions of organomercurials with acylhalides, 394

Organometallics

Spectral and catalytic hydrogenation studies of Ru^{II} organometallics containing substituted tertiary phosphines, 411

Hydrido Ru^{II} organometallics; synthesis, spectral and catalytic hydrogenation studies, 733

Orthoesters

Iodine catalyzed selective *O*-alkylation of alcohols with orthoesters, 189

***Ougeinia dalbergioides* (Benth.)**

Novel flavone glycoside from *Ougeinia dalbergioides* (Benth.), 303

Oxalic acid

Densities and apparent molar volumes of oxalic acid in water and in aqueous solutions of sucrose at 293.15, 303.15, 313.15 and 323.15 K, 184

Oxidant

N-Bromonicotinamide – A novel, stable and less expensive oxidant and its antimicrobial acvitity, 1119

Oxidation

Preferential solvation effect on the kinetics of oxidation of *para*-substituted anilines by tetramethylammonium fluorochromate, 359

Kinetics and mechanism of the oxidation of substituted benzaldehydes by tetrabutylammonium tribromide, 582

Kinetics and mechanism of catalysed and uncatalysed oxidation of D-glucose by *N*-bromosuccinimide in aqueous acidic medium, 777

Superoxide catalyzed oxidation of 4-alkylsubstituted pyrazol-5-ones to 4-alkyl-4-hydroxysubstituted pyrazol-5-ones, 825

Kinetics and mechanism of the ruthenium(III) catalyzed oxidation of some polyhydric alcohols by acid bromate, 1109

Kinetics and reaction mechanism of the controlled oxidation of some industrial alcohols by haloamines, 1135

Oxidative regeneration

Kinetics and mechanism of the oxidative regeneration of carbonyl compounds from oximes by quinolinium bromochromate, 458

Oximes

A mild and efficient cleavage of oximes, hydrazones and semicarbazones using aqueous solution of zinc tetrafluoroborate, 496

Oxine

Microbial screening of thorium(IV) and dioxouranium(VI) chelates with oxine and phenols, 637

Oxolinic acid

Synthesis and characterization of metal complexes of flumequine, oxolinic acid, ofloxacin and ciprofloxacin, 1205

Oxomolybdenum(V)

Synthesis, spectral, thermal, electrochemical and antibacterial studies of oxomolybdenum(V) and dioxomolybdenum(VI) complexes with 2,3-dimethyl-1-phenyl-4-(5-chloro-2-hydroxybenzylideneamino)-pyrazol-5-one, 329

Palladium(II)

Synthesis, spectral and catalytic hydrogenation studies of palladium(II) complexes containing substituted tertiary phosphines, 122

Synthesis and spectral properties of palladium(II) complexes derived from 5-methyl-3-formylpyrazole thiosemicarbazones and *S*-alkyl/aryl dithiocarbazates, 544

Palladium catalysis

Carbon-carbon bond formation via palladium catalyzed reactions of organomercurials with acylhalides, 394

Metal-catalysed reactions in the synthesis of heterocyclic structures, 1063

Palladium-copper catalyst

Metal-catalysed reactions in the synthesis of heterocyclic structures, 1063

Paramagnetic

Coordination compounds of polystyrene-supported azo dye, 217

Paraquat

Interaction of paraquat with electrochemically synthesized silver nanoparticles, 698

Perfumery alcohols

Kinetics and reaction mechanism of the controlled oxidation of some industrial alcohols by haloamines, 1135

Periodic table

An electronic arrangement of the periodic table for assigning ideal electronic configuration of the elements, 204

Permeability

Comparative study on the geographical, physical and engineering properties of soils of West Bengal. Part-1, 559

Permonosulphuric acid

Kinetics and mechanism of electron-transfer reactions : Oxidation of pyruvic acid by peroxomonosulphuric acid in acid aqueous medium, 897

Persulphate

Kinetics and mechanism of electron-transfer reactions : Light induced bleaching of methyl orange by peroxodisulphate in the presence of $[Ru(bipy)_3^{2+}]$ photocatalyst in aqueous solution, 764

Pesticide

A new sensitive method for the determination of deltamethrine in environmental, agricultural and biological samples, 1176

Pd-naphthylazoimidazoles

Coupling of arylamine with coordinated naphthylazoimidazole in palladium(II) complexes. Spectroscopic and electrochemical studies, 623

pH indicators

Syntheses of 2-carboxy-2′,4′-diamino azo benzene and 2-nitro-2′-hydroxy-4′-methyl azo benzene and their use as acid-base indicators, 256

Pharmaceutical analysis

UV and extractive spectrophotometric methods for the determination of Nebivolol hydrochloride in tablets, 1242

Phase diagram

T-X Phase diagram of $(NH_4)_2SO_4/H_2O$, 350

Phenanthrene

Synthesis of a new water reducing agent, 200

Phenanthrolines

Cyclic voltammetric studies of some tris(diimine)-cobalt(II) complexes in dimethylformamide solution, 333

Cyclic voltammetric studies of some bis(phenanthrolines)copper(II) complexes, 515

Phenols

Microbial screening of thorium(IV) and dioxouranium(VI) chelates with oxine and phenols, 637

Synthesis, spectroscopic and electrochemical studies of axially ligated aluminium(III) etioporphyrins, 640

Phenoxy herbicides

Spectroscopic and equilibrium characterization of metal complexes of phenoxy acid herbicides, 283

Phenoxyacetic acid

Kinetics of substitution reactions of hexacoordinate cobalt(III) complexes with phenoxyacetic acid herbicides, 273

Phenyl hydrazones

Phenylazo derivatives of some unsaturated β-diketones and their metal complexes, 518

Phenyl mercury

Synthesis, structural aspects and ligation behaviour of phenylmercury(II) dithio complexes having Hg–S bonds, 867

Phosphorus

Kinetics and mechanism of the oxidation of lower oxyacids of phosphorous by morpholinium chlorochromate, 892

Photo degradation

Photo-Fenton degradation of sunset yellow FCF catalyzed by aromatic additives, 996

Photocatalytic effect

Photocatalytic bleaching of Trypan blue over zinc oxide – particulate system, 801

Photogalvanic cell

Use of rose bengal-EDTA system for the generation of electricity in a photogalvanic cell, 181

Brij-35-Bismark Brown-DTPA system in photogalvanic cell, 269

Photooxidation

Oxidation of olefins, 902

***ortho*-Phthalaldehyde**

New cobalt(II) tetraaza macrocyclic complexes : Synthesis, spectral and antimicrobial studies, 971

Phthalimide

Synthesis and biological evaluation of 3-(phthalimidomethyl)-4-(5-substituted isoxazoline and pyrazoline) substituted benzanilides, 1011

Piper cubeba

Antifungal activity of Cubebin from *Piper cubeba*, 823

Plant growth retardant

Synthesis of quaternary salts of ammonia from cinnamic acids and their plant growth retardant activity, 612

Plasticity

Engineering and physico-chemical properties of soils of deltaic region of West Bengal. Part-I [Physical (index and engineering) properties], 568

Polarizability

Polarizabilities and energetics of boroxopyrrole homologues studied by *ab initio* and density functional methods, 83

Polyaniline

Effect of acrylic acid doping on the properties of chemically synthesized polyaniline, 176

Polyfunctional ligands

Synthesis and characterization of tris[*N*-(2-oxo-1-naphthylidene) glycinato]manganese(III) and its reaction products with oxygen, nitrogen and/or sulphur donors, 418

Polyhydric alcohols

Kinetics and mechanism of the ruthenium(III) catalyzed oxidation of some polyhydric alcohols by acid bromate, 1109

Polymer membrane

Study of applicability of polymer membranes in selective removal of transition metal ions from sea water, 939

Polymerization

Preparation, polymerization and characterization of some new maleimides, 385

Polymerized latik

Polymerized latik for retrieval of lead(II) from aqueous systems, 770

Polystyrene

Coordination compounds of polystyrene-supported azo dye, 217

Polyvinyl alcohol

Synthesis of silica hollow nanosphere using poly vinyl alcohol, 1159

Potential

Effect of organic solvents and concentration on electrochemical reduction behaviour of *N,N'*-(dibenzylidene)-*p*-phenylenediamine, 1223

Potentiometry

HF and MP2 calculations on two Schiff base ligands and stability constant studies on some of their metal complexes, 1255

Primary/secondary amines

A pulse polarographic method for the determination of primary and secondary amines and its application to the analysis of organic isocyanates, 1145

L-Proline

Kinetics and mechanism of the reaction of hydroxopentaaquarhodium(III) ion with L-proline in aqueous solution, 280

Proton transfer

Theoretical study on the reaction mechanism of proton transfer in cysteinamine, 139

Protonation

Effect of dielectric constant of urea-water medium on protonation constants of L-glutamic acid and L-methionine, 346

Pulse polarography

Voltammetric studies of copper(II)-dithiocarbamate reaction and a differential pulse polarographic method for the determination of dithiocarbamates, 20

A pulse polarographic method for the determination of primary and secondary amines and its application to the analysis of organic isocyanates, 1145

PVC-membrane electrode

Polymeric membrane ion-selective electrode for copper(II) ions based on Cu^{II}-cyclohexaneone thiosemicarbazone complex, 291

2*H*-Pyrano[2,3-*b*]pyridine-2-one

Synthesis of novel 3-substituted derivatives of 2*H*-pyrano[2,3-*b*]pyridine-2-one moiety, 1048

Pyrazol-5-one

LiBr catalyzed, microwave enhanced synthesis of 5-arylidene rhodanine under solvent free conditions, 1239

Pyrazole

Synthesis and biological evaluation of 3-(phthalimidomethyl)-4-(5-substituted isoxazoline and pyrazoline) substituted benzanilides, 1011

Pyrazolines

Synthesis antitubercular and antimicrobial activities of some new pyrazolines and isoxazole derivatives, 1140

Pyrazolylthiosemicarbazones

Synthesis and spectral properties of palladium(II) complexes derived from 5-methyl-3-formylpyrazole thiosemicarbazones and *S*-alkyl/aryl dithiocarbazates, 544

Pyrimidine

Synthesis of some new 2,4,6-trisubstituted phenyl pyrimidines using 4-nitro and 4-fluorophenacyl dimethylsulfonium bromides with aromatic aldehydes, 299

Pyrimidin-7-one

Synthesis and biological activity of 3*H*-1,5-benzodiazepine derivatives, 1261

Pyridazindione

Microwave assisted synthesis and characterization of some new annulated pyrimidinone derivatives, 1234

Pyrolytic carbon

Effect of sonication on the structure of hydrogenated amorphous carbon obtained through the pyrolysis of benzene, 370

Pyronine B

Linear sweep voltammetric determination of chondroitin sulfate based on its interaction with pyronine B, 717

Pyruvic acid

Kinetics and mechanism of electron-transfer reactions : Oxidation of pyruvic acid by peroxomonosulphuric acid in acid aqueous medium, 897

QSAR; quantitative structure activity relationship

Quantitative structure activity relationship studies on a series of 1,3-diaryl-4,5,6,7-tetrahydro-2*H*-isoindole derivatives as potent and selective Cox-2-inhibitors, 260

Quaternary salts

Synthesis of quaternary salts of ammonia from cinnamic acids and their plant growth retardant activity, 612

Quercetin

Flavonoids of *Zizyphus* species, 297

Quinazolones

Synthesis, characterization and antiviral activity of 2,3-disubstituted quinazolones, 593

Ramipril

Simultaneous estimation of ramipril and metoprolol tartrate in combined dosage forms, 609

Rate-acidity

Kinetics and mechanistic study of acid-catalysed hydrolysis of *p*-chlorophenyl-2-furohydroxamic acid, 588

Reactivity

Biginelli reaction, 959

Redor process

Cyclic voltammetric studies of some tris(diimine)-cobalt(II) complexes in dimethylformamide solution, 333

Redox reaction

Mechanism and evaluation of individual kinetic and thermodynamic parameters of acid bromate-lactic acid redox reaction, 548

Refractive index

Densities and refractive indexes of binary liquid mixtures of eucalyptol with some alcohols, 807

Refractivity

Theoretical studies of refractivity of binary and ternary solutions, 674

Relaxation

Studies on physico-chemical properties with the relaxation phenomena of some normal aliphatic alcohols in non polar solvent under Giga Hertz electric field at a single temperature, 241

Review

Biginelli reaction, 959

Rhamnaceae

Mauritine-K, A new antifungal cyclopeptide alkaloid from *Zizyphus mauritiana*, 781

Rhodium(III)

Kinetics and mechanism of the reaction of hydroxopentaaquarhodium(III) ion with L-proline in aqueous solution, 280

Rice Husk

Industrial processing of rice husk for environment, energy and economy, 1246

RNA polymerase

Synthesis, characterization and antiviral activity of 2,3-disubstituted quinazolones, 593

Rose Bengal

Use of rose bengal-EDTA system for the generation of electricity in a photogalvanic cell, 181

Rosiglitazone

Simultaneous spectrophotometric estimation of rosiglitazone maleate and glimepiride in tablets, 1179

Rossalac thinner

Identification of explosives and constituents of fuel oil in ANFO using HPTLC and GC-MS technique, 74

$Ru^{II}(bipy)_3$

Kinetics and mechanism of electron-transfer reactions : Light induced bleaching of methyl orange by peroxodisulphate in the presence of $[Ru(bipy)_3^{2+}]$ photocatalyst in aqueous solution, 764

Ruthenium(II)

Spectral and catalytic hydrogenation studies of Ru^{II} organometallics containing substituted tertiary phosphines, 411

Hydrido Ru^{II} organometallics; synthesis, spectral and catalytic hydrogenation studies, 733

Ruthenium(III)

Mononuclear and binuclear ruthenium(III) complexes of macrocyclic compartmental ligands : synthetic, spectral speciation, electrochemical behaviour and antimicrobial studies, 524

Kinetics and mechanism of the ruthenium(III) catalyzed oxidation of some polyhydric alcohols by acid bromate, 1109

Safranine T

Electrochemical detection of DNA based on its interaction with safranine T, 171

Sativanine-K

Mauritine-K, A new antifungal cyclopeptide alkaloid from *Zizyphus mauritiana*, 781

Schiff base

Synthesis, characterization and DNA studies of transition metal(II) complexes of Schiff base derived from *p*-aminoacetanilide and salicylaldehyde, 117

Investigations on some tridentate Schiff base metal complexes, 323

Synthesis, spectral, thermal, electrochemical and antibacterial studies of oxomolybdenum(V) and dioxomolybdenum(VI) complexes with 2,3-dimethyl-1-phenyl-4-(5-chloro-2-hydroxybenzylideneamino)-pyrazol-5-one, 329

Mononuclear and binuclear ruthenium(III) complexes of macrocyclic compartmental ligands : synthetic, spectral speciation, electrochemical behaviour and antimicrobial studies, 524

Synthesis and characterization of oxovanadium(IV), cobalt(II), nickel(II), copper(II) and palladium(II) complexes of some coumarin-based Schiff bases, 629

Electrochemical and electron paramagnetic resonance studies of some oxovanadium(IV) complexes with ONO donor Schiff base ligands, 647

DNA cleavage efficiency of transition metal(II) Schiff base complexes of 4-aminoantipyrine derivative : Synthesis, characterization and antimicrobial study, 652

Schiff base complexes of some metal ions with vanillin and amino acids, 739

Synthesis, spectral and thermal studies of dioxouranium(VI) complexes of Schiff bases derived from 2,3-dimethyl-1-phenyl-4-amino pyrazol-5-one, 861

Electrochemical investigations on copper(II) complexes with quardidentate Schiff bases with O_2N_2 donor set, 872

Synthesis, structural and thermal characterization and antifungal study of manganese(II), iron(III), cobalt(II) and copper(II) complexes of N,O donor ligands, 1086

di-Schiff base

Study of thermodynamic parameters in electrochemical reduction of *N,N'*-(di-benzylidene)-*p*-phenylenediamine, 293

Sea water

Study of applicability of polymer membranes in selective removal of transition metal ions from sea water, 939

Second derivative spectrophotometry

Simultaneous second derivative spectrophotometric determination of copper(II) and nickel(II) using 1-phenyl-1,2-propanedione-2-oxime thiosemicarbazone, 474

Semicarbazone

Synthesis, characterization and antifungal activity of mixed ligand complexes of Co^{II}, Ni^{II} and Cu^{II} with *cis*-3,7-dimethyl-2,6-octadiensemicarbazone and amino acids, 341

A mild and efficient cleavage of oximes, hydrazones and semicarbazones using aqueous solution of zinc tetrafluoroborate, 496

Semiconductors

Electrosynthesis and characterization of CdSeHgTl thin films, 407

Silver

Interaction of paraquat with electrochemically synthesized silver nanoparticles, 698

Silver complex

Silver complex of 2-methyl-pyrimidine. Two dimensional coordination polymer, 978

Silica hollow microsphere

Synthesis of silica hollow nanosphere using poly vinyl alcohol, 1159

Simultaneous determination

2-Hydroxy-3-methoxy benzaldehyde thiosemicarbazone (HMBATSC) as a spectrophotometric reagent for simultaneous second order derivative determination of nickel(II) and vanadium(V), 307

Single crystal X-ray diffraction

Silver complex of 2-methyl-pyrimidine. Two dimensional coordination polymer, 978

Smectic

Synthesis and study of new mesogenic homologous series : 4-(4′-*n*-alkoxy benzoyloxy)naphthyl azo benzenes, 658

Synthesis of new mesogens : 4-(4′-*n*-alkoxy benzoyloxy)-β-benzoyl styrene, 774

Synthesis and study of new mesogenic homologous series : 4-(4′-*n*-alkoxy benzoyloxy)-naphthylazo-4″-acetylbenzenes, 1122

Soil

Engineering and physico-chemical properties of soils of deltaic region of West Bengal. Part-I [Physical (index and engineering) properties], 568

Solar energy conversion

Brij-35-Bismark Brown-DTPA system in photogalvanic cell, 269

Solute-solvent interactions

Studies on the effect of different ligands and percent composition of organic solvents on solvent-solute interaction by interferometric technique, 389

Solution study

Theoretical and solution chemistry of metal complexes of furfural, 643

Solvation

Preferential solvation effect on the kinetics of oxidation of *para*-substituted anilines by tetramethyl ammonium fluorochromate, 359

Solvent

Effect of organic solvents and concentration on electrochemical reduction behaviour of *N,N'*-(dibenzylidene)-*p*-phenylenediamine, 1223

Solvent effect

Solvent hydrogen bonding and structural effects on nucleophilic substitution reactions Part-1 : Reaction of benzenesulphonyl chloride with anilines in benzene/2-methylpropan-2-ol-mixtures, 1227

Solvent system

Search for suitable mobile phase in TLC analysis of different drugs of forensic interest and their gas liquid chromatographic experiment, 69

Solvolysis

Substituent effects on the spontaneous cleavage of α-alkyl/phenyl benzyl-*gem*-dichlorides in aqueous solution, 937

Sonication

Effect of sonication on the structure of hydrogenated amorphous carbon obtained through the pyrolysis of benzene, 370

Sonogashira reaction

Metal-catalysed reactions in the synthesis of heterocyclic structures, 1063

L-Sorbose

Kinetics and mechanism of oxidation of L-sorbose by tetraethylammonium chlorochromate in aqueous acetic acid, 1162

Sorption

Removal of chromium(III), iron(III) and nickel(II) by synthetic analogue of mica mineral sodium potassium fluorophlogopite, 381

Spectral studies

Spectral and physicochemical studies of Ni^{II} complexes with some nitrogen-oxygen and nitrogen-sulphur donor ligands, 55

Synthesis, characterization and spectral studies of copper(II) complexes of *o*-ethyl and *o*-*t*-butylesters of hydrazine carboxylic acid, 934

Spectrophotometric

A sensitive, selective and extractive spectrophotometric determination of tungsten(VI) using 3-hydroxy-2-phenyl-4-oxo-4*H*-1-benzopyran, 1052

Spectrophotometry

Spectrophotometric determination of tin(II) using 3-hydroxy-2-phenyl-4-oxo-4*H*-1-benzopyran as a complexing agent, 693

Spectroscopy

Volumetric, acoustic, viscometric and spectroscopic properties for binary mixtures of dipropylene glycol dimethyl ether + *n*-alkylamine mixtures at 298.15 K, 661

Stability constants

Spectroscopic and equilibrium characterization of metal complexes of phenoxy acid herbicides, 283

Graphical methods of simultaneous determination of molar absorptivity and stability constant of 1 : 1 metal complex using spectrophotometric data : Fe^{III}-5-nitrosalicylic acid complex, 1126

Standard potential

A comparative study of crystalline state properties of alkali halides using the three standard potential models, 942

Steel

Emeraldine base conducting polymer coatings for protection of steels against corrosion, 152

Steel substrate

Electrodeposition of Co-Ni alloy from citrate-acetate bath on steel substrate, 914

Stoichiometry

Misuse of the term 'molecularity' as applied to elementary reactions : An opinion, 932

Stopped flow

Kinetics and mechanism of complex formation between gallium(III) and *trans*-bis($[(en)_2Co$(H-malonato)$_2]^+$ in aqueous medium, 983

Structure rate correlation

Kinetics and mechanism of the oxidative regeneration of carbonyl compounds from oximes by quinolinium bromochromate, 458

Substituted benzopyran

Extractive spectrophotometric determination of tungsten(VI) as its 3-hydroxy-2-(4-methoxyphenyl)-6-methyl-4-oxo-4*H*-1-benzopyran complex, 501

Substituted diketones

Thiazolylazo derivatives of some unsaturated β-diketones and their metal complexes, 337

Substituted dithiazolidines

Synthesis of 3-hepta-*O*-acetyl-β-lactosylimino-4-aryl-5-phenylimino-1,2,4-dithiazolidines (hydrochlorides), 1029

Substituted hydrazone

Direct and derivative spectrophotometric determination of cobalt(II) with 2,4-dihydroxybenzaldehyde isonicotinoyl hydrazone, 706

Substituted pyrazole

Superoxide catalyzed oxidation of 4-alkylsubstituted pyrazol-5-ones to 4-alkyl-4-hydroxysubstituted pyrazol-5-ones, 825

Substituted triazoles

Synthesis of some new 3-(1,2,3-benzotriazolylmethyl)-4-(3-chloro-4-substituted aryl-2-oxo-azetidine)-5-mercapto-1,2,4-triazoles : Antifungal and antibacterial agents, 1037

Substitution

Solvent hydrogen bonding and structural effects on nucleophilic substitution reactions Part-1 : Reaction of benzenesulphonyl chloride with anilines in benzene/2-methylpropan-2-ol-mixtures, 1227

Substitution reactions

Substitution reactions of ligand bridged dinuclear complexes of cobalt(III) and chromium(III), 9

Sucrose

Densities and apparent molar volumes of oxalic acid in water and in aqueous solutions of sucrose at 293.15, 303.15, 313.15 and 323.15 K, 184

Sudan

A rapid and simple HPLC method for the routine laboratory analysis of Sudan (I to IV) dyes in chilli and chilli products, 926

Sulfadiazene

Voltammetric determination of composition and stability constants of some Pb-amino acids-sulfadiazene (SDZ) complexes, 1216

Sulfonamide

Oxidation kinetics of some sulfoxides with *N,N*-dibromobenzene sulfonamide, 679

Sulfonium salts

Synthesis of some new 2,4,6-trisubstituted phenyl pyrimidines using 4-nitro and 4-fluorophenacyl dimethylsulfonium bromides with aromatic aldehydes, 299

Sulfoxides

Oxidation kinetics of some sulfoxides with *N,N*-dibromobenzene sulfonamide, 679

Sulphite ion

Kinetic studies on the reduction of dithiazone by sulphite ions in micellar media, 554

Sulphur donor

Synthesis and characterization of tris[*N*-(2-oxo-1-naphthylidene)glycinato]manganese(III) and its reaction products with oxygen, nitrogen and/or sulphur donors, 418

Sunset yellow

Photo-Fenton degradation of sunset yellow FCF catalyzed by aromatic additives, 996

Superoxide catalysis

Superoxide catalyzed oxidation of 4-alkylsubstituted pyrazol-5-ones to 4-alkyl-4-hydroxysubstituted pyrazol-5-ones, 825

Surfactant catalysis

Catalytic effect of pre-micellar aggregates on oxidative degradation of acridine orange by acidic chlorite, 443

Synthesis

Synthesis of 2′-(substituted)benzylidene hydrazino-5-arylamino-1,3,4-thiadiazoles and their antimicrobial activity, 103

TDR

Temperature dependent dielectric relaxation study of triol-water mixtures using picosecond time domain technique, 354

Ternary mixtures

Volumetric and viscometric studies of binary and ternary mixtures of *o*-nitrotoluene with methyl alcohol, benzene, tolueme, carbon tetrachloride and 1,4-dioxane at 298.15 K, 59

Ternary solutions

Theoretical studies of refractivity of binary and ternary solutions, 674

Tertiary phosphines

Synthesis, spectral and catalytic hydrogenation studies of palladium(II) complexes containing substituted tertiary phosphines, 122

Spectral and catalytic hydrogenation studies of Ru^{II} organometallics containing substituted tertiary phosphines, 411

Tetraaza macrocyclic complexes

New cobalt(II) tetraaza macrocyclic complexes : Synthesis, spectral and antimicrobial studies, 971

Tetrachloroaurate(III)

Kinetics and mechanism of the oxidation of ethane diol and butane-2,3-diol by tetrachloroaurate(III) in acetate buffer medium, 462

Tetradentate ligand

Synthesis and spectroscopic studies of transition metal complexes with 1,5:10,14-dimetheno-[1,4,8,11]-tetraazatetradeca-1,3,5,6,8,10,12,14,15,17-decane a fourteen membered tetradentate macrocyclic ligand, 223

Tetraethylammonium chlorochromate

Kinetics and mechanism of oxidation of L-sorbose by tetraethylammonium chlorochromate in aqueous acetic acid, 1162

Tetrahydroxy

Synthesis of silica hollow nanosphere using poly vinyl alcohol, 1159

Theoretical study

Theoretical and solution chemistry of metal complexes of furfural, 643

Thermal analysis

Synthesis, structural and thermal characterization and antifungal study of manganese(II), iron(III), cobalt(II) and copper(II) complexes of N,O donor ligands, 1086

Transition metal complexes of dehydroacetic acid chalcone : Synthesis, spectral, thermal and fungicidal study, 1096

Thermal studies

Synthesis, spectral and thermal studies of dioxo-uranium(VI) complexes of Schiff bases derived from 2,3-dimethyl-1-phenyl-4-amino pyrazol-5-one, 861

Thermodynamic functions

Volumetric and viscometric studies of binary and ternary mixtures of *o*-nitrotoluene with methyl alcohol, benzene, toluene, carbon tetrachloride and 1,4-dioxane at 298.15 K, 59

Thermodynamic parameters

Study of thermodynamic parameters in electrochemical reduction of *N,N'*-(di-benzylidene)-*p*-phenylene-diamine, 293

Thermogravimetric analyses

Chemo-physical properties of dysprosium myristate and stearate soaps, 149

Thermogravimetry

Synthesis, spectral, thermal, electrochemical and antibacterial studies of oxomolybdenum(V) and dioxomolybdenum(VI) complexes with 2,3-dimethyl-1-phenyl-4-(5-chloro-2-hydroxybenzylideneamino)-pyrazol-5-one, 329

Thermophysical properties

Theoretical studies of refractivity of binary and ternary solutions, 674

1,3,4-Thiadiazole

Synthesis of 2'-(substituted)benzylidene hydrazino-5-arylamino-1,3,4-thiadiazoles and their antimicrobial activity, 103

Thiazole

Synthesis of a few novel bioactive 2-substituted amino-5-indol-4-oyl-4-phenylthiazoles, 1016

Thiazolidinone

Synthesis and biological activity of some benzothiazolyl thiazolidinones, 498

2,4-Thiazolidinedione

LiBr catalyzed, microwave enhanced synthesis of 5-arylidene rhodanine under solvent free conditions, 1239

4-Thiazolidones

Synthesis and biological activity of 4-thiazolidones, 1174

Thiazolyl hydrazone

Synthesis and characterization of some transition metal complexes with 4-(phenyl/*p*-bromophenyl)thiazolyl hydrazone of furfural, 1092

Thin films

Electrosynthesis and characterisation of CdSeHgTl thin films, 407

Thiocarbamides

Synthesis of 3-hepta-*O*-acetyl-β-lactosylimino-4-aryl-5-phenylimino-1,2,4-dithiazolidines (hydrochlorides), 1029

Thiohydantoins

Synthesis, spectroscopic and antibacterial studies of mono- and bis(cyclopentadienyl)titanium(IV) derivatives with thiohydantoins temperatures, 427

Thiopyrimidines

Synthesis and evaluation of pharmacological activity of some new aminopyrimidine and thiopyrimidine derivatives, 1169

Thiosemicarbazide

Synthesis of some new thiosemicarbazide and 1,2,4-triazoles heterocycles bearing thiophene nucleus as a potent antitubercular and antimicrobial agents, 709

Thiosemicarbazone

Spectral and physicochemical studies of Ni^{II} complexes with some nitrogen-oxygen and nitrogen-sulphur donor ligands, 55

Synthesis, characterisation and coordination properties of 5-methyl-3-formylpyrazole ^{4}N-benzylthiosemicarbazone (HMPzNB) : Cobalt(III), nickel(II) and copper(II) complexes with a NNS donor system, 130

Synthesis and physicochemical studies of Mn^{II}, Co^{II}, Ni^{II} and Cu^{II} complexes with 2-acetyl thiophene thiosemicarbazone (L), 325

Facile synthesis and antimicrobial screening of some biorelevant thiosemicarbazone and its analogues, 1032

Thiosemicarbazone analogue

Facile synthesis and antimicrobial screening of some biorelevant thiosemicarbazone and its analogues, 1032

Thiotriazole

Electrochemical behaviour of 5-benzyl-4-(4′-methylphenyl)-4*H*-1,2,4-triazole-3-thiol by voltammetry, 1024

Thorium soap

Conductometric investigations of thorium soaps, 804

Thorium(IV)

Microbial screening of thorium(IV) and dioxouranium(VI) chelates with oxine and phenols, 637

Tin(II)

Synthesis, characterization and reactivity of tin(II) 2,4-dinitrophenoxide, 230

Spectrophotometric determination of tin(II) using 3-hydroxy-2-phenyl-4-oxo-4*H*-1-benzopyran as a complexing agent, 693

Tin(IV)

Synthesis and characterization of new *N*-aryl-salicylaldiminates of germanium(IV) and tin(IV), 844

Titanium(IV)

Synthesis, spectroscopic and antibacterial studies of mono- and bis(cyclopentadienyl)titanium(IV) derivatives with thiohydantoins temperatures, 427

TLC

Search for suitable mobile phase in TLC analysis of different drugs of forensic interest and their gas liquid chromatographic experiment, 69

Identification of explosives and constituents of fuel oil in ANFO using HPTLC and GC-MS technique, 74

***p*-Toluenesulfonic acid**

Synthesis and biological activity of 3*H*-1,5-benzodiazepine derivatives, 1261

Total phenolics

Antioxidant potential of fennel (*Foeniculum vulgare* Mill.), 948

Transition metals

Synthesis, characterization and DNA studies of transition metal(II) complexes of Schiff base derived from *p*-aminoacetanilide and salicylaldehyde, 117

DNA cleavage efficiency of transition metal(II) Schiff base complexes of 4-aminoantipyrine derivative : Synthesis, characterization and antimicrobial study, 652

Transition metal alkoxides

Reactions of later 3*d* divalent transition metal chlorides with metal alkoxides and characterization of novel heterobimetallic alkoxide coordination compounds, 856

Transition metal complexes

Synthesis and spectral characterization of Knoevenagel condensate β-ketoanilide and its transition metal(II) complexes, 29

Synthesis, structural and thermal characterization and antifungal study of manganese(II), iron(III), cobalt(II) and copper(II) complexes of N,O donor ligands, 1086

Synthesis and characterization of some transition metal complexes with 4-(phenyl/*p*-bromophenyl) thiazolyl hydrazone of furfural, 1092

Transition metal complexes of dehydroacetic acid chalcone : Synthesis, spectral, thermal and fungicidal study, 1096

Synthesis and spectroscopic studies of Cr^{III}, Fe^{III} and Co^{II} complexes of hexaazamacrocycles, 1202

Transition metal ions

Synthesis and spectroscopic studies of transition metal complexes with 1,5:10,14-dimetheno-[1,4,8,11]-tetraazatetradeca-1,3,5,6,8,10,12,14,15,17-decane a fourteen membered tetradentate macrocyclic ligand, 223

Synthesis and characterization of oxovanadium(IV), cobalt(II), nickel(II), copper(II) and palladium(II) complexes of some coumarin-based Schiff bases, 629

Study of applicability of polymer membranes in selective removal of transition metal ions from sea water, 939

Transition state

Study for dependence of transition state with applied potential in electrokinetic reactions of [Mn-antibiotics-cephalothin] system vis-a-vis kinetics of electrode reactions, 96

Triazoles

Synthesis of some new thiosemicarbazide and 1,2,4-triazoles heterocycles bearing thiophene nucleus as a potent antitubercular and antimicrobial agents, 709

Tridentate ligand

Coordination compounds of polystyrene-supported azo dye, 217

Synthesis and spectral properties of palladium(II) complexes derived from 5-methyl-3-formylpyrazole thiosemicarbazones and *S*-alkyl/aryl dithiocarbazates, 544

Trypan blue

Photocatalytic bleaching of Trypan blue over zinc oxide – particulate system, 801

Tungsten(VI)

Extractive spectrophotometric determination of tungsten(VI) as its 3-hydroxy-2-(4-methoxyphenyl)-6-methyl-4-oxo-4*H*-1-benzopyran complex, 501

A sensitive, selective and extractive spectrophotometric determination of tungsten(VI) using 3-hydroxy-2-phenyl-4-oxo-4*H*-1-benzopyran, 1052

Ultrasonics

Ultrasonic velocity and allied properties of manganese, cobalt and copper soaps in non-aqueous medium, 46

Molecular interaction studies of caffeine in aqueous metal chloride solutions at 308.15 K, 483

Ultrasonometry

Volumetric, acoustic, viscometric and spectroscopic properties for binary mixtures of dipropylene glycol dimethyl ether + *n*-alkylamine mixtures at 298.15 K, 661

Unsaturated β-diketones

Phenylazo derivatives of some unsaturated β-diketones and their metal complexes, 518

Urea

Effect of dielectric constant of urea-water medium on protonation constants of L-glutamic acid and L-methionine, 346

Van der Waals energy

Evaluation of Van der Waals dipole-dipole and dipole-quadrupole energies and crystal energies in copper, silver and thallium halides, 145

Vanadium(V)

2-Hydroxy-3-methoxy benzaldehyde thiosemicarbazone (HMBATSC) as a spectrophotometric reagent for simultaneous second order derivative determination of nickel(II) and vanadium(V), 307

Vanadyl compounds

Electrochemical and electron paramagnetic resonance studies of some oxovanadium(IV) complexes with ONO donor Schiff base ligands, 647

Vanillin

Investigations on some tridentate Schiff base metal complexes, 323

Schiff base complexes of some metal ions with vanillin and amino acids, 739

Vibrational frequencies

Quantum chemical predictions of vibrational mode analysis of germaformaldehyde and related molecules, 448

Vicinal diol

Kinetics and mechanism of the oxidation of ethane diol and butane-2,3-diol by tetrachloroaurate(III) in acetate buffer medium, 462

Vinyl monomer

Preparation, polymerization and characterization of some new maleimides, 385

Viscosities

Viscometric and thermodynamic study of bi-univalent mixed electrolyte systems in non-aqueous solvents at 293.15, 303.15 and 313.15 K, 876

Viscosity

Volumetric and viscometric studies of binary and ternary mixtures of *o*-nitrotoluene with methyl alcohol, benzene, toluene, carbon tetrachloride and 1,4-dioxane at 298.15 K, 59

Densities, viscosities and thermodynamic excess properties of ternary liquid mixtures of aniline + acetone + (benzene or + toluene or + carbon tetrachloride or + 1,4-dioxane) and their constituent binaries at 298.15 K, 250

Volumetric and viscometric studies of mono- and disaccharides in water and in mixed solvent (formamide + water) systems at 293.15, 303.15 and 313.15 K, 436

Molecular interaction studies of caffeine in aqueous metal chloride solutions at 308.15 K, 483

A study on viscosities of some bivalent transition metal nitrates and magnesium nitrate in aqueous and binary aqueous mixtures of DMF at different temperatures, 577

Theoretical evaluation of viscosity in binary solutions of acetophenone at 308.15 K, 1130

Vitamin-B_1

Study of mixed ligand complexes of Zn^{II} with some antibiotics and vitamin-B_1 drugs. Kinetics of electrode reactions, 702

Voltammetry

Voltammetric determination of composition and stability constants of some Pb-amino acids-sulfadiazene (SDZ) complexes, 1216

Waste water

Removal of chromium(III), iron(III) and nickel(II) by synthetic analogue of mica mineral sodium potassium fluorophlogopite, 381

Water reducing agents

Synthesis of a new water reducing agent, 200

West Bengal

Comparative study on the geographical, physical and engineering properties of soils of West Bengal. Part-I, 559

Engineering and physico-chemical properties of soils of deltaic region of West Bengal. Part-I [Physical (index and engineering) properties], 568

Xanthate

Mono- and bis(cyclopentatienyl)hafnium(IV) derivatives with alkyl xanthates, 431

Ylieds

Synthesis of some new 2,4,6-trisubstituted phenyl pyrimidines using 4-nitro and 4-fluorophenacyl dimethylsulfonium bromides with aromatic aldehydes, 299

Zimm-Bragg model

Mathematical validation of helix coil transition in polypeptides : A modelling approach, 1219

Zinc(II)

Equilibrium and synthetic studies of homo- and heterobinuclear complexes of DTPA with Zn^{II} and some transition and alkaline earth metal ions, 1199

Zinc oxide

Photocatalytic bleaching of Trypan blue over zinc oxide - particulate system, 801

Zinc tetrafluoroborate

A mild and efficient cleavage of oximes, hydrazones and semicarbazones using aqueous solution of zinc tetrafluoroborate, 496

Zipper model

Mathematical validation of helix coil transition in polypeptides : A modelling approach, 1219

Zizyphus mauritiana

Mauritine-K, A new antifungal cyclopeptide alkaloid from *Zizyphus mauritiana*, 781

J. Indian Chem. Soc.,
Vol. 84, December 2007, pp. 1304-1308
